

Burl's Guide to Einhasad

By Burl

What's good, I'm Burl?

I am here to take you on
a tour of the Einhasad
server, in the rapidly
dying game known as
Lineage 2 Revolution.

Let's start with how
Einhasad came to be.

Einhasad is made up of the old Cruma 1 and Cruma 2 servers.

One of these Crumas was home to such clans as Blacklisted, Legendary, and SodaSquad; the other server is home to Forsaken and some other clans that suck at pvp.

I am from the good
Cruma, not the bad
one.

The Alliances

We
Got
Them

Einhasad has three major alliances:

Einhasad has three major alliances:

1. Horde

b. F4

iii. Resistance

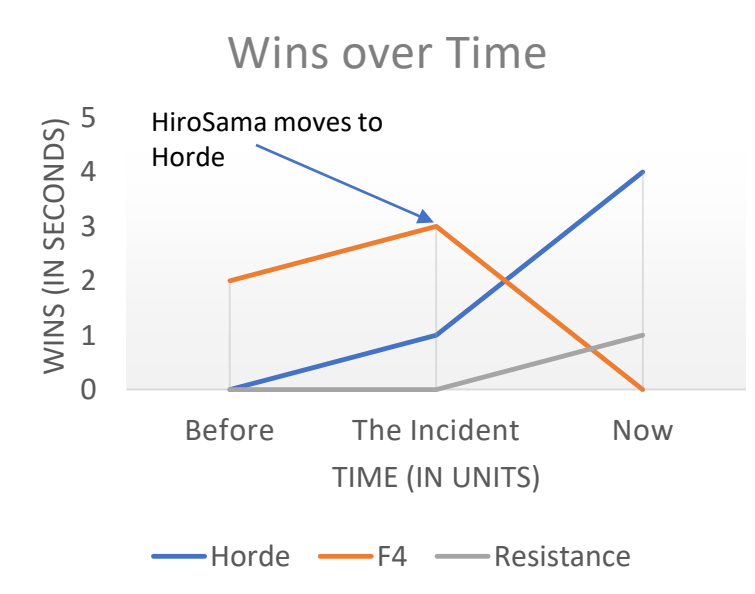

Horde is the dominant alliance on the server, mostly because they have HiroSama.

Horde have a bunch of forts and Dion castle, the best castle.

As you can clearly see from this chart, the alliance that HiroSama calls home has more wins.

I showed this chart to my mom and she was very proud of it. I hope that she puts it on the fridge.

Resistance are currently the 2nd place alliance, owning Gludio castle and 2 forts.

But much like with other second place finishers, no one remembers that they exist.

F4 are the 3rd place alliance.

F4 has some forts but no castle, so they are third.

F4 lacks sharks, which is probably why they're third

There are probably more alliances on the server, but those clans suck so I won't be covering them

Let's us look more closely at the important alliances and ignore the other ones.

HORDE

The background of the image features three McDonald's McFlurrys. The one on the left is a chocolate swirl McFlurry. The one in the center is a vanilla swirl McFlurry with a chocolate swirl on top. The one on the right is a vanilla swirl McFlurry with a red swirl on top. They are all served in their signature white cups with a gold-colored lid.

I played Undead Mage from about 1.8 to Cataclysm launch. It was fun for a while but got boring around WotLK, so I quit. I think that Blizzard just lost their grasp on what made WoW fun and they were trying to make the game too controlled and cinematic. I have tried to go back but it just cannot hold my interest anymore.

None of this has to do with Horde alliance, but I wasn't sure what to put here.

Horde alliance is made up of approximately 905 clans across 160 games.

I was Horde for 2 days, so I am somewhat of an expert on this alliance.

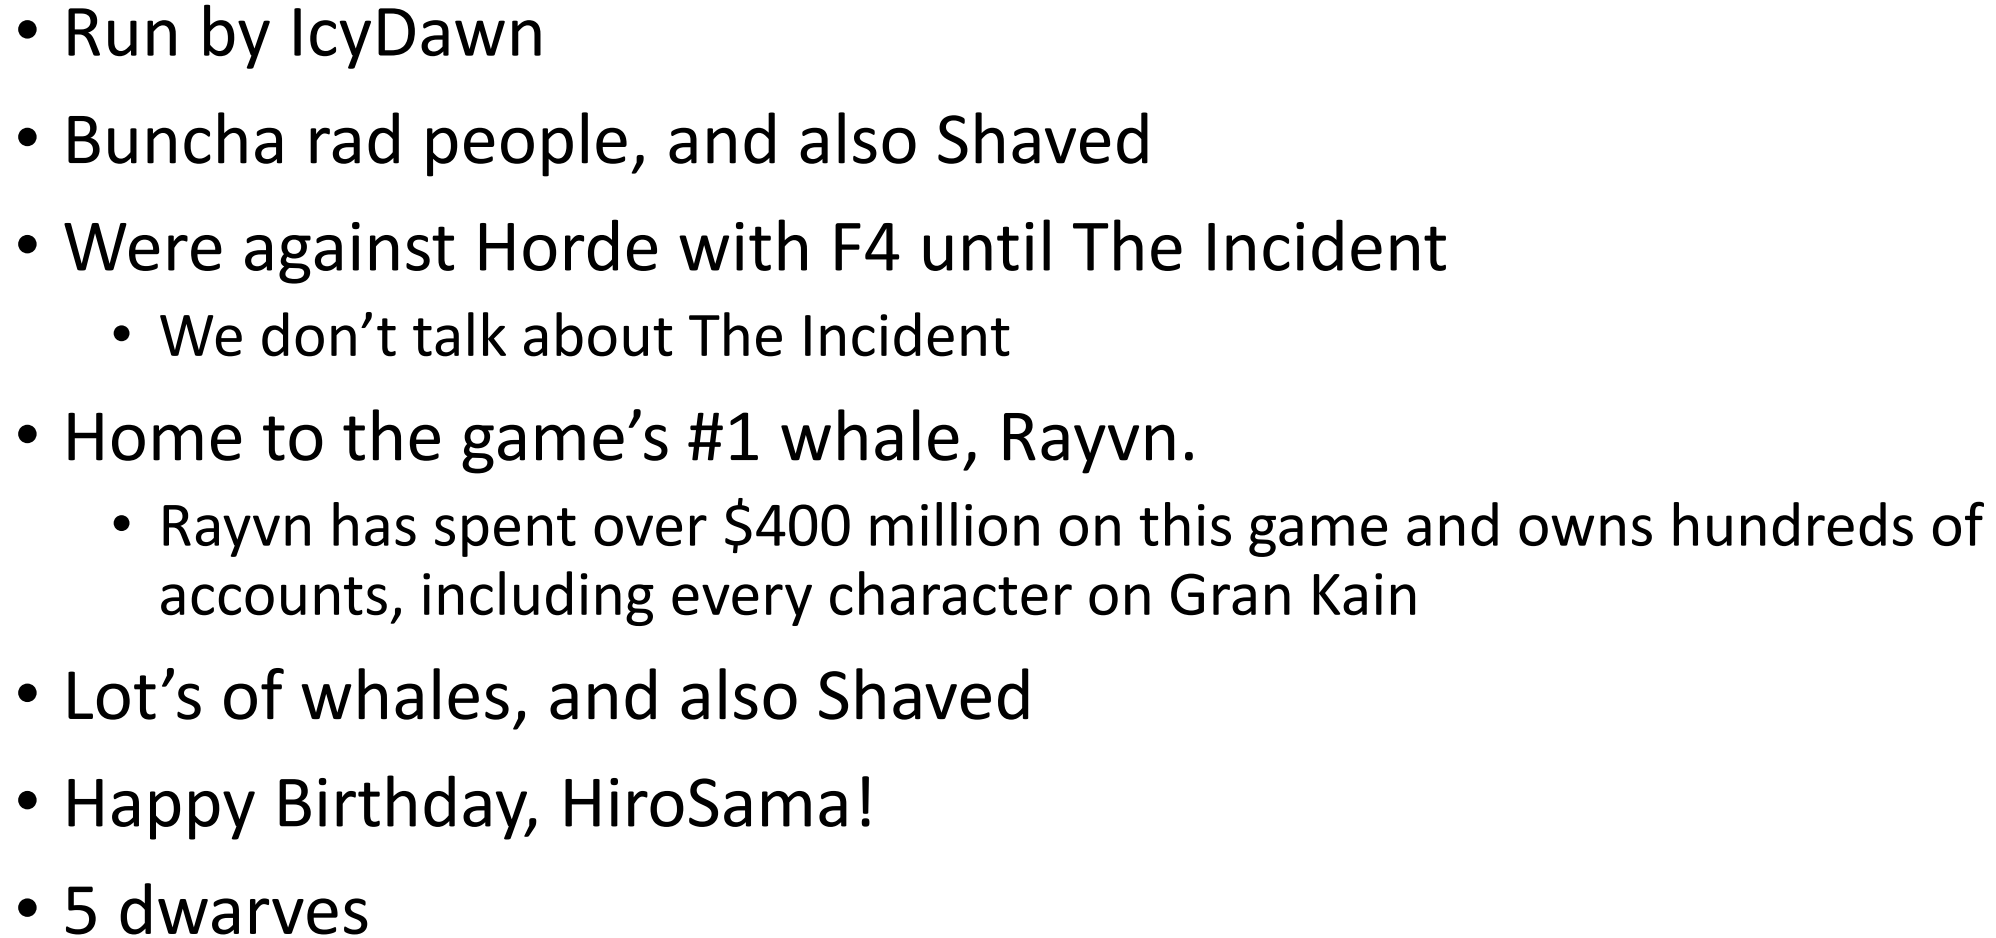

On Einghasad, Horde are made up of Forsaken, Legendary, Blacklisted, RoyalClub, Bloodline, Crimson. I will also throw Civic in there to make them feel cool.

We will take a quick look at some of the clans.

FORSAKEN

- Top CP clan on the server
- Run by Mob3nforcer
- Gots a bunch of whales but none of them dance with me
- Gdamn has a lot of alts
- Other notables include Han, Code, and probably some more but I don't feel like looking
- There was another Forsaken but it died or something
- 2 dwarves

- 
- Run by IcyDawn
 - Buncha rad people, and also Shaved
 - Were against Horde with F4 until The Incident
 - We don't talk about The Incident
 - Home to the game's #1 whale, Rayvn.
 - Rayvn has spent over \$400 million on this game and owns hundreds of accounts, including every character on Gran Kain
 - Lot's of whales, and also Shaved
 - Happy Birthday, HiroSama!
 - 5 dwarves

Blacklisted

- Run by Stunnz
- Has some whales
 - Notables include WhiteGiant (#1 Hakweye) and Holysmoke
- The current version of Legendary was formed after Leg lost its 50th consecutive siege. Leg absorbed all of its allies, sort of like a blackhole of suck, in an attempt to beat Blacklisted and take a castle.
 - Leg still lost to Blacklisted
- They have gotten better at countdowns as of late
- Very fun to PK
- Gibblet is in this clan
- 5 dwarves – including Gibblet lol

LEGENDARY

- Run by someone, maybe VenMissa?
- I don't know much about Crimson
- They have a fort
- Deceit is a fucker in 3v3
- Wazzu sucks
 - Dubs up bitch
- That's it
- 4 dwarves

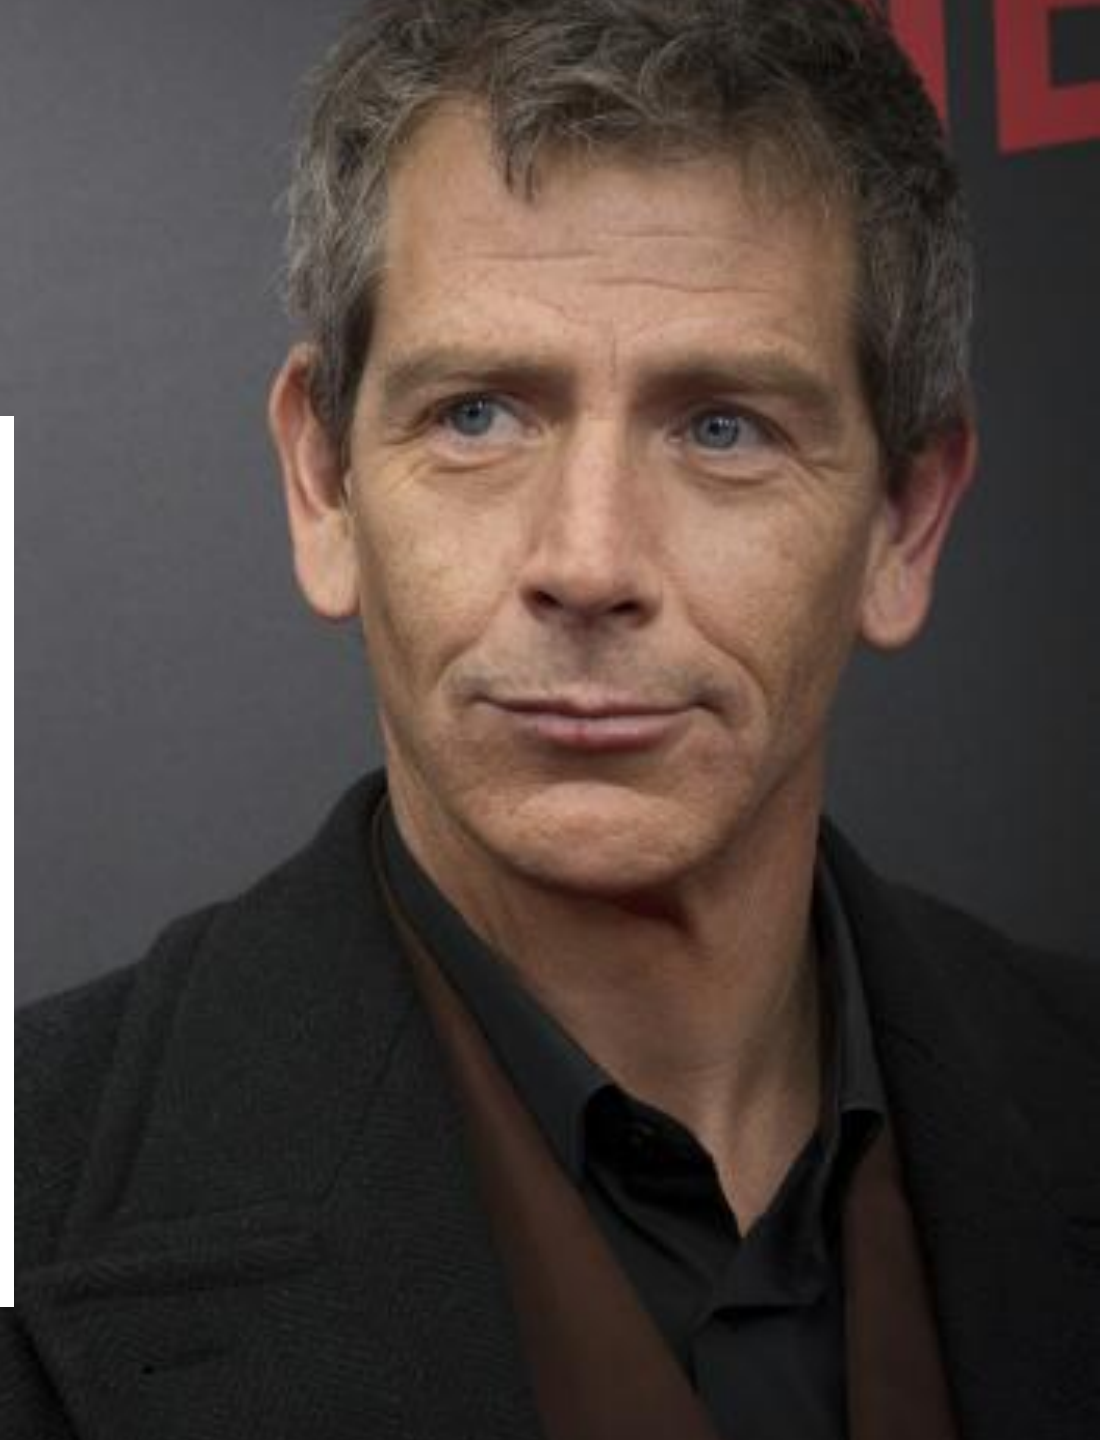

Crimson

- I was in this clan for 2 days.
- Run by Amy or Vacheron, I forget
- Nice people
- They have a zepeto channel on Discord
- Gaga and JShadow are cool people
- Rin 2: electric bibuloo is in RC now
- They run dungeons at random times
- They don't like war
 - Neither does anyone else in Horde
- 5 dwarves

BLOODLINE

- Narra runs it
- Can't call it BL, which is inconvenient
- No fort
- Has someone named Eww, which is a good name
- They seem nice
- 3 dwarves

- Old ass clan
 - Civic has been pillaged and rebuilt more times than Rome
- Bfraid runs it, I think
- Fun to pk, mostly out of tradition
- I don't think anyone from original Civic still plays
- I don't know if its named after the car or the high school class
- 3 dwarves

There are probably more Horde clans, since Horde is easier to get in to than ASU, but I am too lazy to make more slides

I have heard that Horde discord is good, which is probably another reason that they win a lot.

Speaking of bad alliance discords, next up we have F4!

F4

Where I live

F4 is an alliance from the bad Cruma.

A few months ago, it added some clans from Best Cruma, such as 战神殿.

Even though I am in this alliance, I know jack shit about it.

Let's take a look at some clans;

- Run by someone with “iCE” in their name
- I was in this clan and it made me want to quit playing
 - I left a bad Yelp review
- Their discord sucks
- Has some whales
- Uhh, yeah...Let's just move on

GOD OF WAR

ZZK →

- Run by RobertHuynh
- Netmarble calls it 'War Temple'
- Second in CP on the server – Top in F4
- I am in this clan
 - So is Vancy, which is also cool as hell
- Notables include everyone because GoW rules
- Has the best whale - ZZK
- Not enough dwarves, because GoW dwarves rule
- China Numba 1

- Run by RobertHuynh
- They all seem nice
- I tried to learn Korean on Duolingo and it is hard
 - Not Japanese hard, but still pretty hard
- Krazee loves us
- Vaca is Spanish for cow
- 3 dwarves

- Meelah runs it
- Has a 'Z' so you know that they're hardcore
- Has the dude with the gibberish name, asdfoiuweq213
- They seem like nice people even though I have never met anyone from there
- I heard that they were big PVPers on the lesser Cruma
- 3 dwarves

Premier

- Run by RobertHuynh
 - His main clan
- One half of a '100 person clan,' along with Guild, called "PG"
- I would put some jokes in here but their officers are very sensitive
 - So are some members
 - I speak from experience here
- 5 dwarves, but one of them is my mom

- The other half of “PG”
- Run by Erya, I think he’s one of Rob’s alts
- Guild was a top clan until ZZK seduced Sanits with duck pictures
 - I miss Santa
- Clan hall is covered in cow shit
- Clan is powered by mooing
- I am liked by G far more than P
- 4 dwarves but they’re all cool

For real, the F4 discord
sucks. Make more
channels.

We gonna look at
Resistance next!

Resistance

I have no fucking idea who is in this alliance

Einhasad started as
Encore vs. Horde – F4
were also there, I guess.

Encore died after The
Incident, and the
remnants joined Horde
or F4.

In recent weeks, the
clans not connected to
any of these alliances
have formed something
called Ω .

Resistance currently holds Gludio castle and 2 B forts.

Gludio was a birthday present from Horde.

I think that Fira, Blackraven, Diabolical, Zodiac, Empire, and Exiled are probably members.

I guess we will look at them.

- Old clan – formed in the first few days of L2R
- Run by EpikFayler
- Formerly allied with members of Horde prior to the Cruma mergers, now Fira claims Neutrality (lol)
- Some whales: CrazyChicken, Scubasteve, Jarshack
- I was invited to join Fira at level 27, so Fira isn't too bad
- 11 dwarves (What the fuck?)

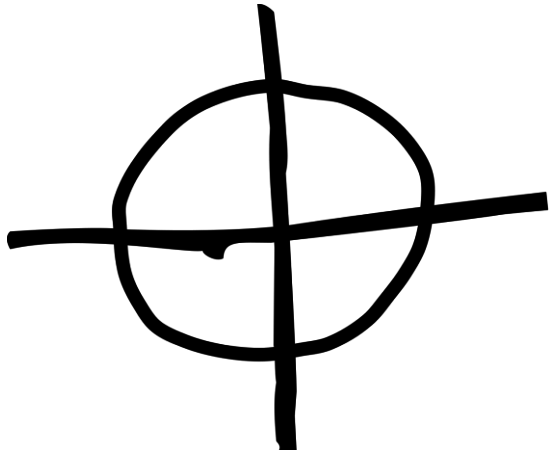

- Run by TheJzoe
- BR has decided to blaze its own path rather than join one of the alliances, which is impressive
 - They haven't gotten very far but its still impressive
- I used to get Blackraven and Blacklisted confused
- No whales to speak of
- Clan CP is meh
- 3 dwarves

- Run by Hadrin
- Lost ~The Forever War~ due to Hot Time
- Hadrin talked a lot of shit before servers merged, then he shut up when Best Cruma kicked his ass
- Some very nice people in there, and also Hadrin
- 4 dwarves

Diabolical

- Run by Pox
- Got a castle rotation and now they keep pking me
 - I am going to pk the shit out of Zodiac now
- HaHaulost is a cool name
- They have the unicorn clan emblem
- 3 dwarves

EXILED

- Run by Kuma
- Maybe in Resistance? I don't know.
- Got stomped in a war against Guild
 - They cried a lot
- Has the most unique clan name in the game
- 9 dwarves (Resis loves dwarves, I guess)

- Run by k2aries
- Fuck if I know if they're in that alliance
- Greene is a nice person
- No whales, but Empire does have that stupid scav that silences me in 3v3
- 4 dwarves

That's it for Resistance, maybe; I don't really know.

There are probably 2 more alliances on this server, but those clans suck so no one cares.

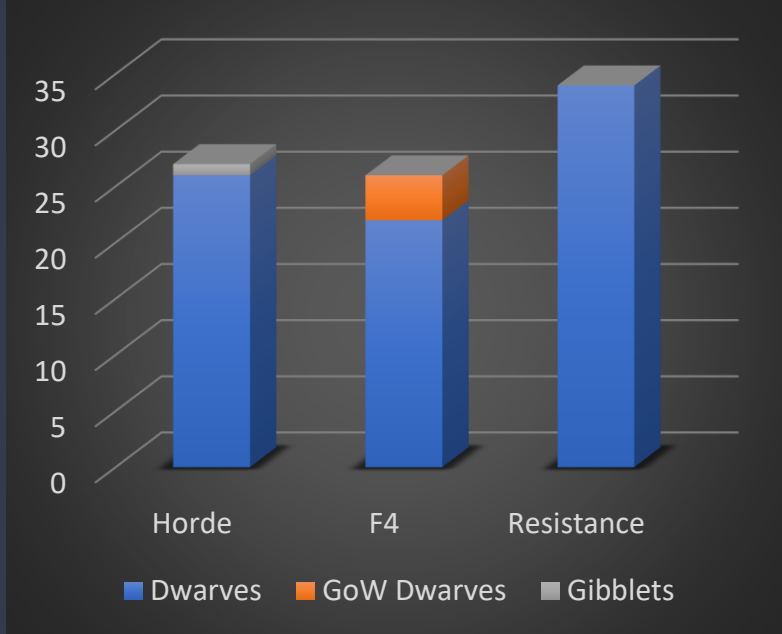

While I was making this,
500 people quit playing
this game.

And Netmarble
probably released a
new rift.

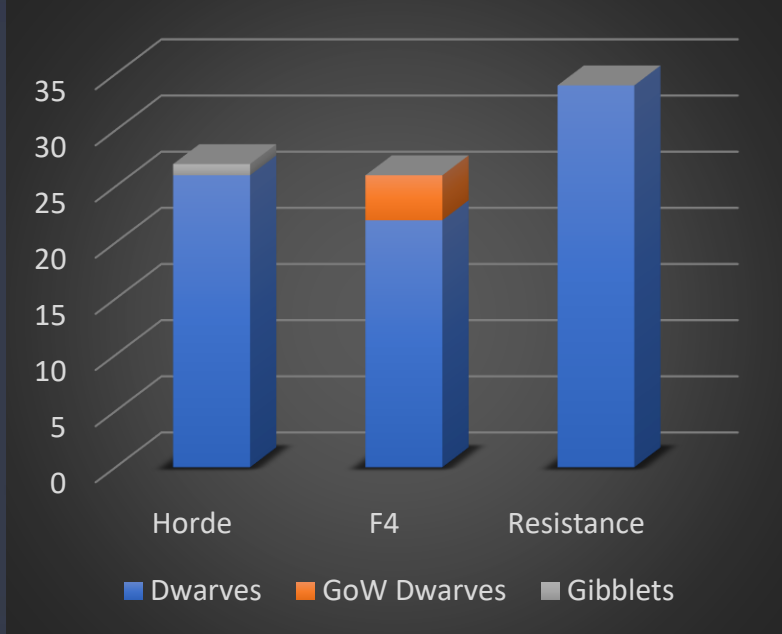

Before we go, let's check that dwarf count!

F4: 22
Horde: 26
Resistance: Way too many

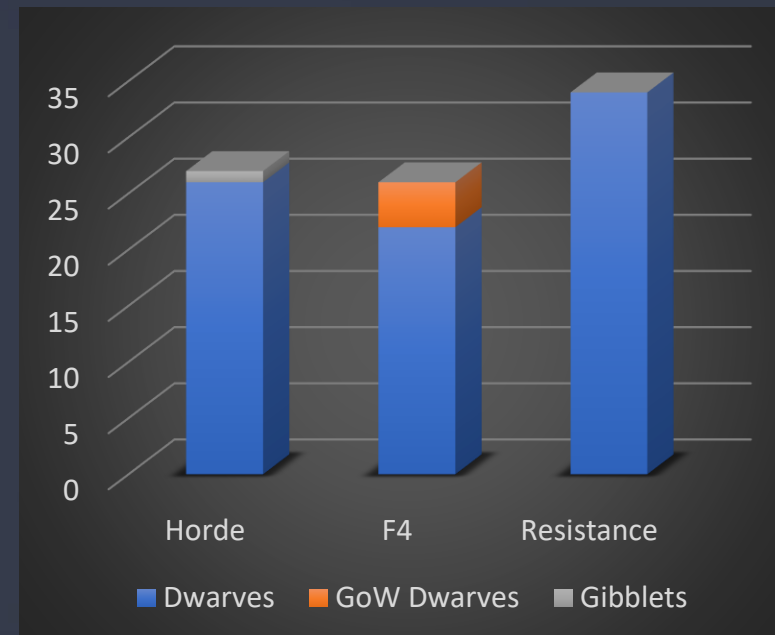

F4: 22

Horde: 26

Resistance: Way too many

Gotta work on that dwarf count, Ω !

Summary

- Alliances with HiroSama win a lot
- Horde have some cool people, but also Gibblet
- F4 has fewer cool people(total and as a percentage), but F4 has my mom and Vancy so it evens out
- Resistance exists and has some clans in it, probably.
- GoW rules
- I miss Sanits and Blacklisted
