# AN INTRODUCTION TO EINHASAD

For grandy kain  
by Burl

Hola, soy Burl. Como estas?  
Espero que estes bien.

You may have seen that Einhasad has died, and we have been forced in to a new server with those fucking AFK orcs from Grain Kan.

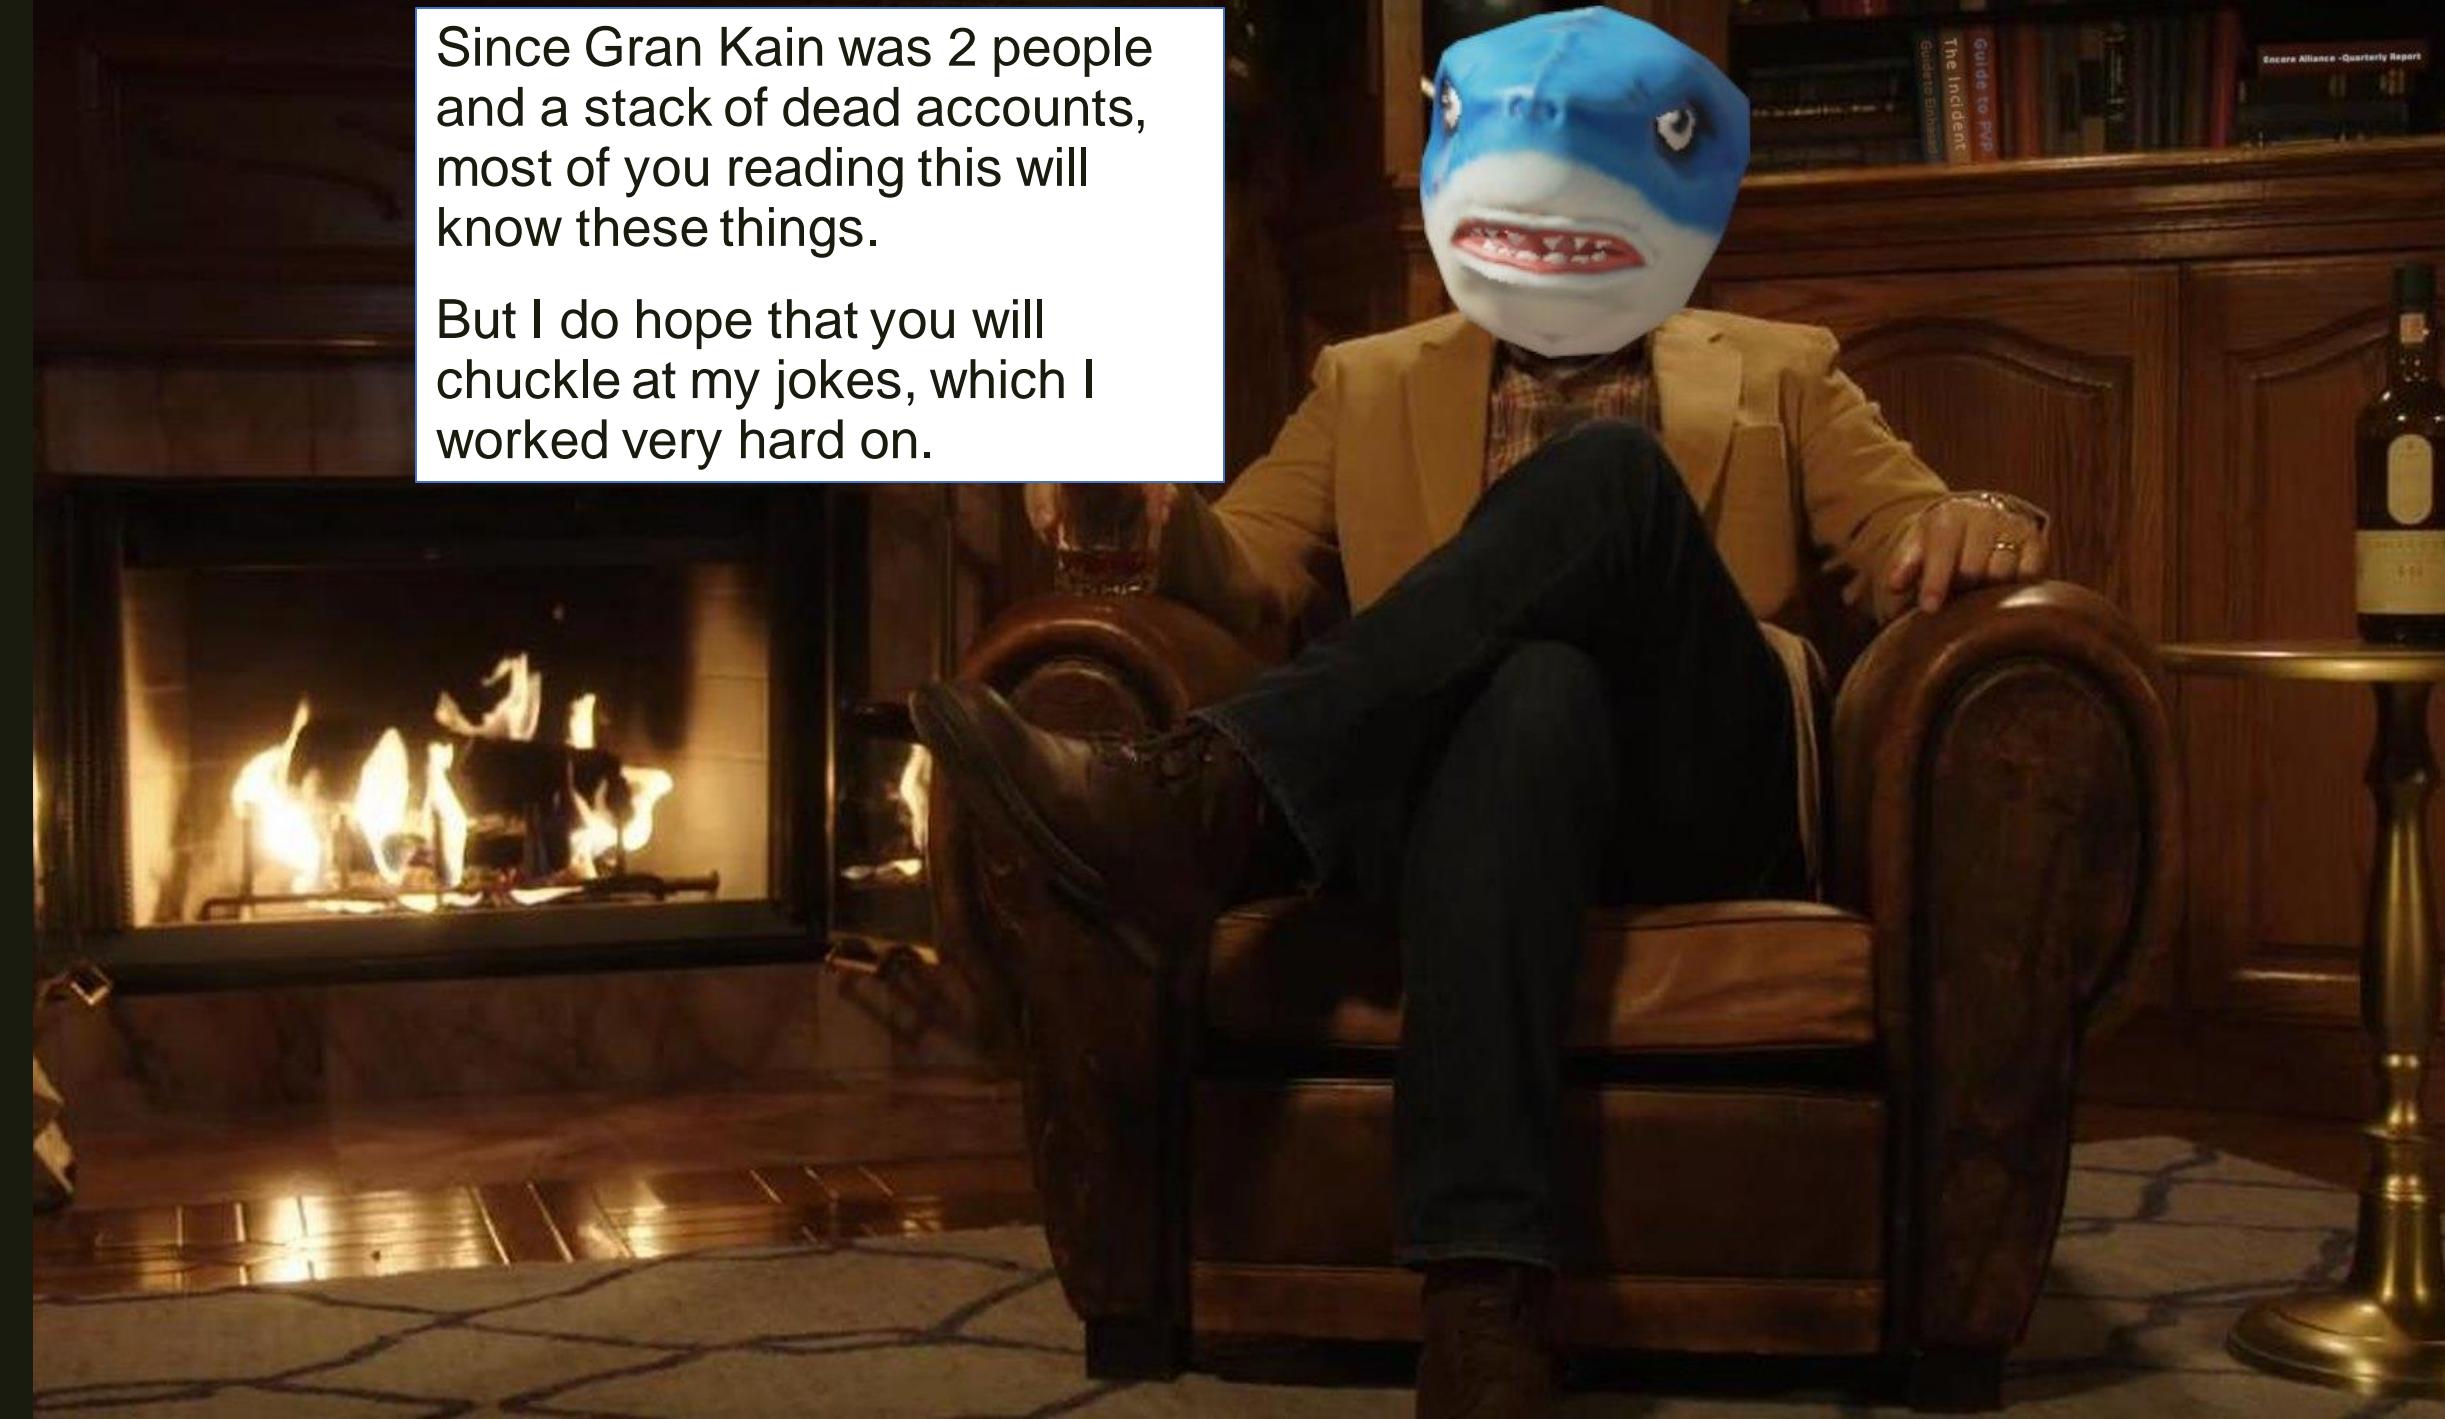

This new server called Vespa will surely bring new and exciting ways for F4 to lose.

But in the meantime, I would like to introduce our GK friends to the clans Einhotsauce.

Since Gran Kain was 2 people  
and a stack of dead accounts,  
most of you reading this will  
know these things.

But I do hope that you will  
chuckle at my jokes, which I  
worked very hard on.

Einhodsod had 3 major factions,  
and I would like to start by  
introducing you to the Horde,  
the best faction.

## Horde Alliance

- Good at PVP
- Good at PVE
- Good at Memes
- Good at Discord
- Have a Burl

Horde alliance enjoyed massive success during the lifespan of Einhasad.

Lead by Mob3nforcer, Horde ran through Einhasad like Genghis Khan ran through Asia.

Except for a few brief periods, Horde held Dion castle through all of Einhasad's life.

There was even a time where Horde held both castles and most of the forts, building the empire that F4 thinks that they have.

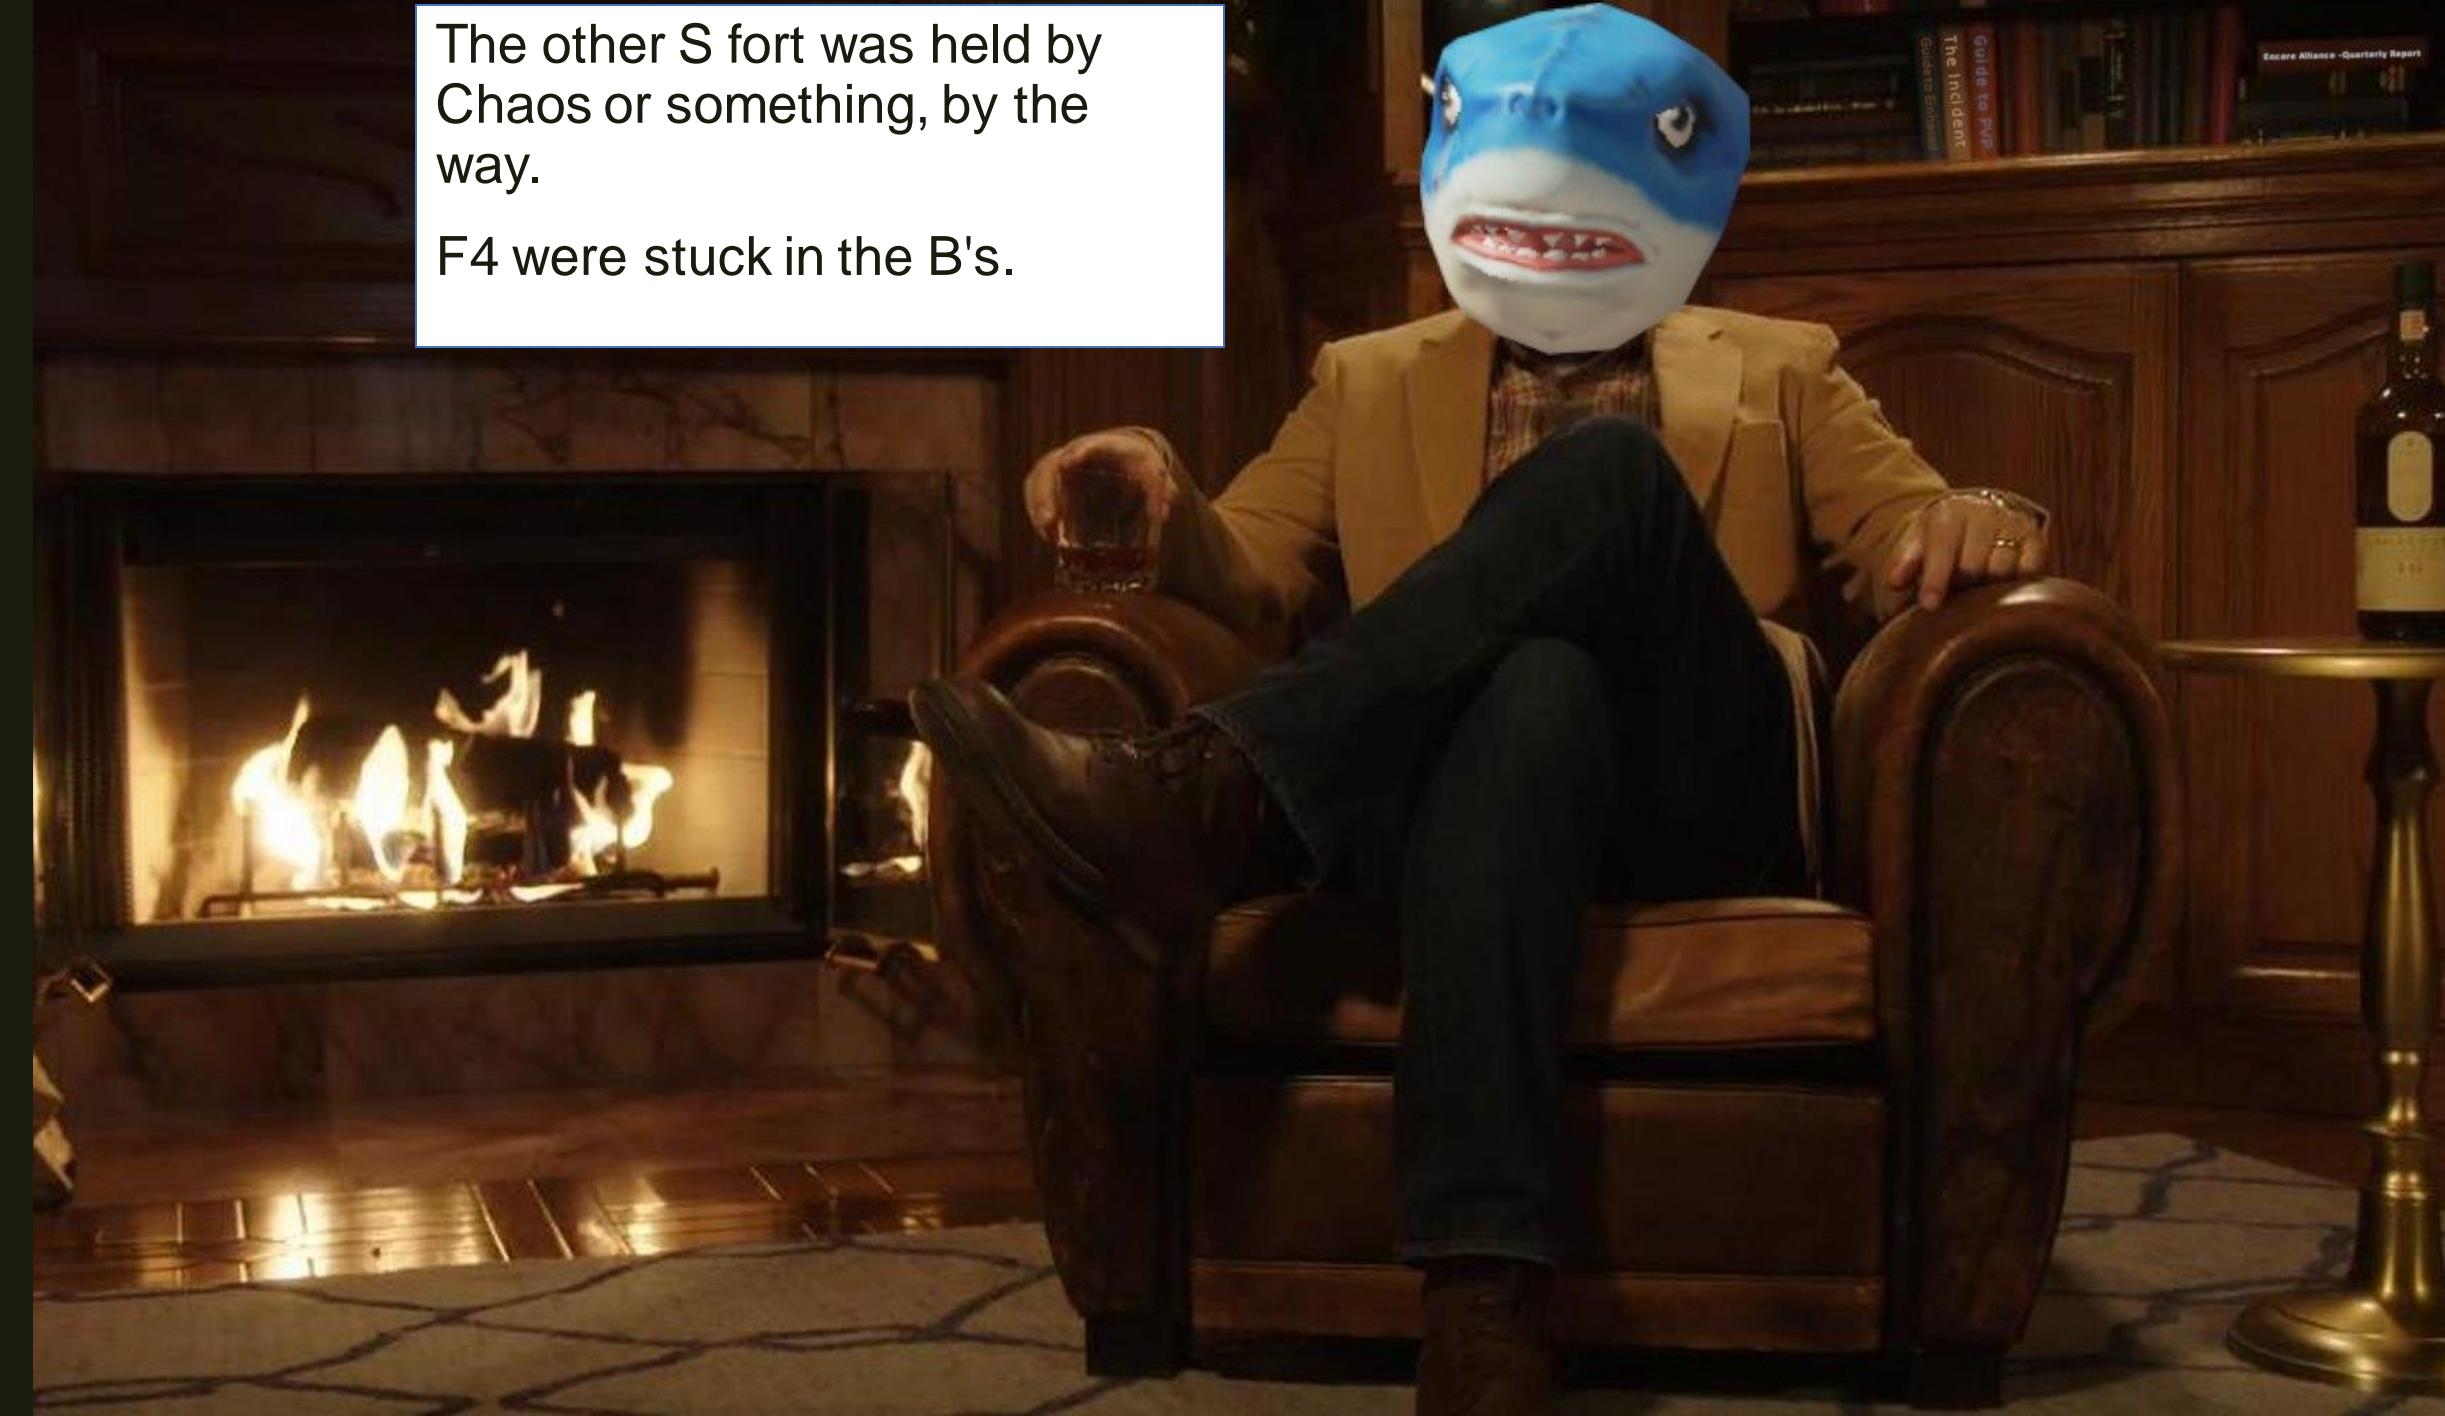

In addition to their castle dominance, Horde clans kept an iron grip on fortresses, ending the server with  $\frac{3}{4}$  of S forts being held by Horde.

The other S fort was held by Chaos or something, by the way.

F4 were stuck in the B's.

Horde came about when Legendary made the correct decision to ally the Forsaken Funbunch after the Crumas merged back in November.

After some Bullshit (see: The Incident), Blacklisted joined the Horde, securing Horde's dominance over the server and making Ariana look like an idiot.

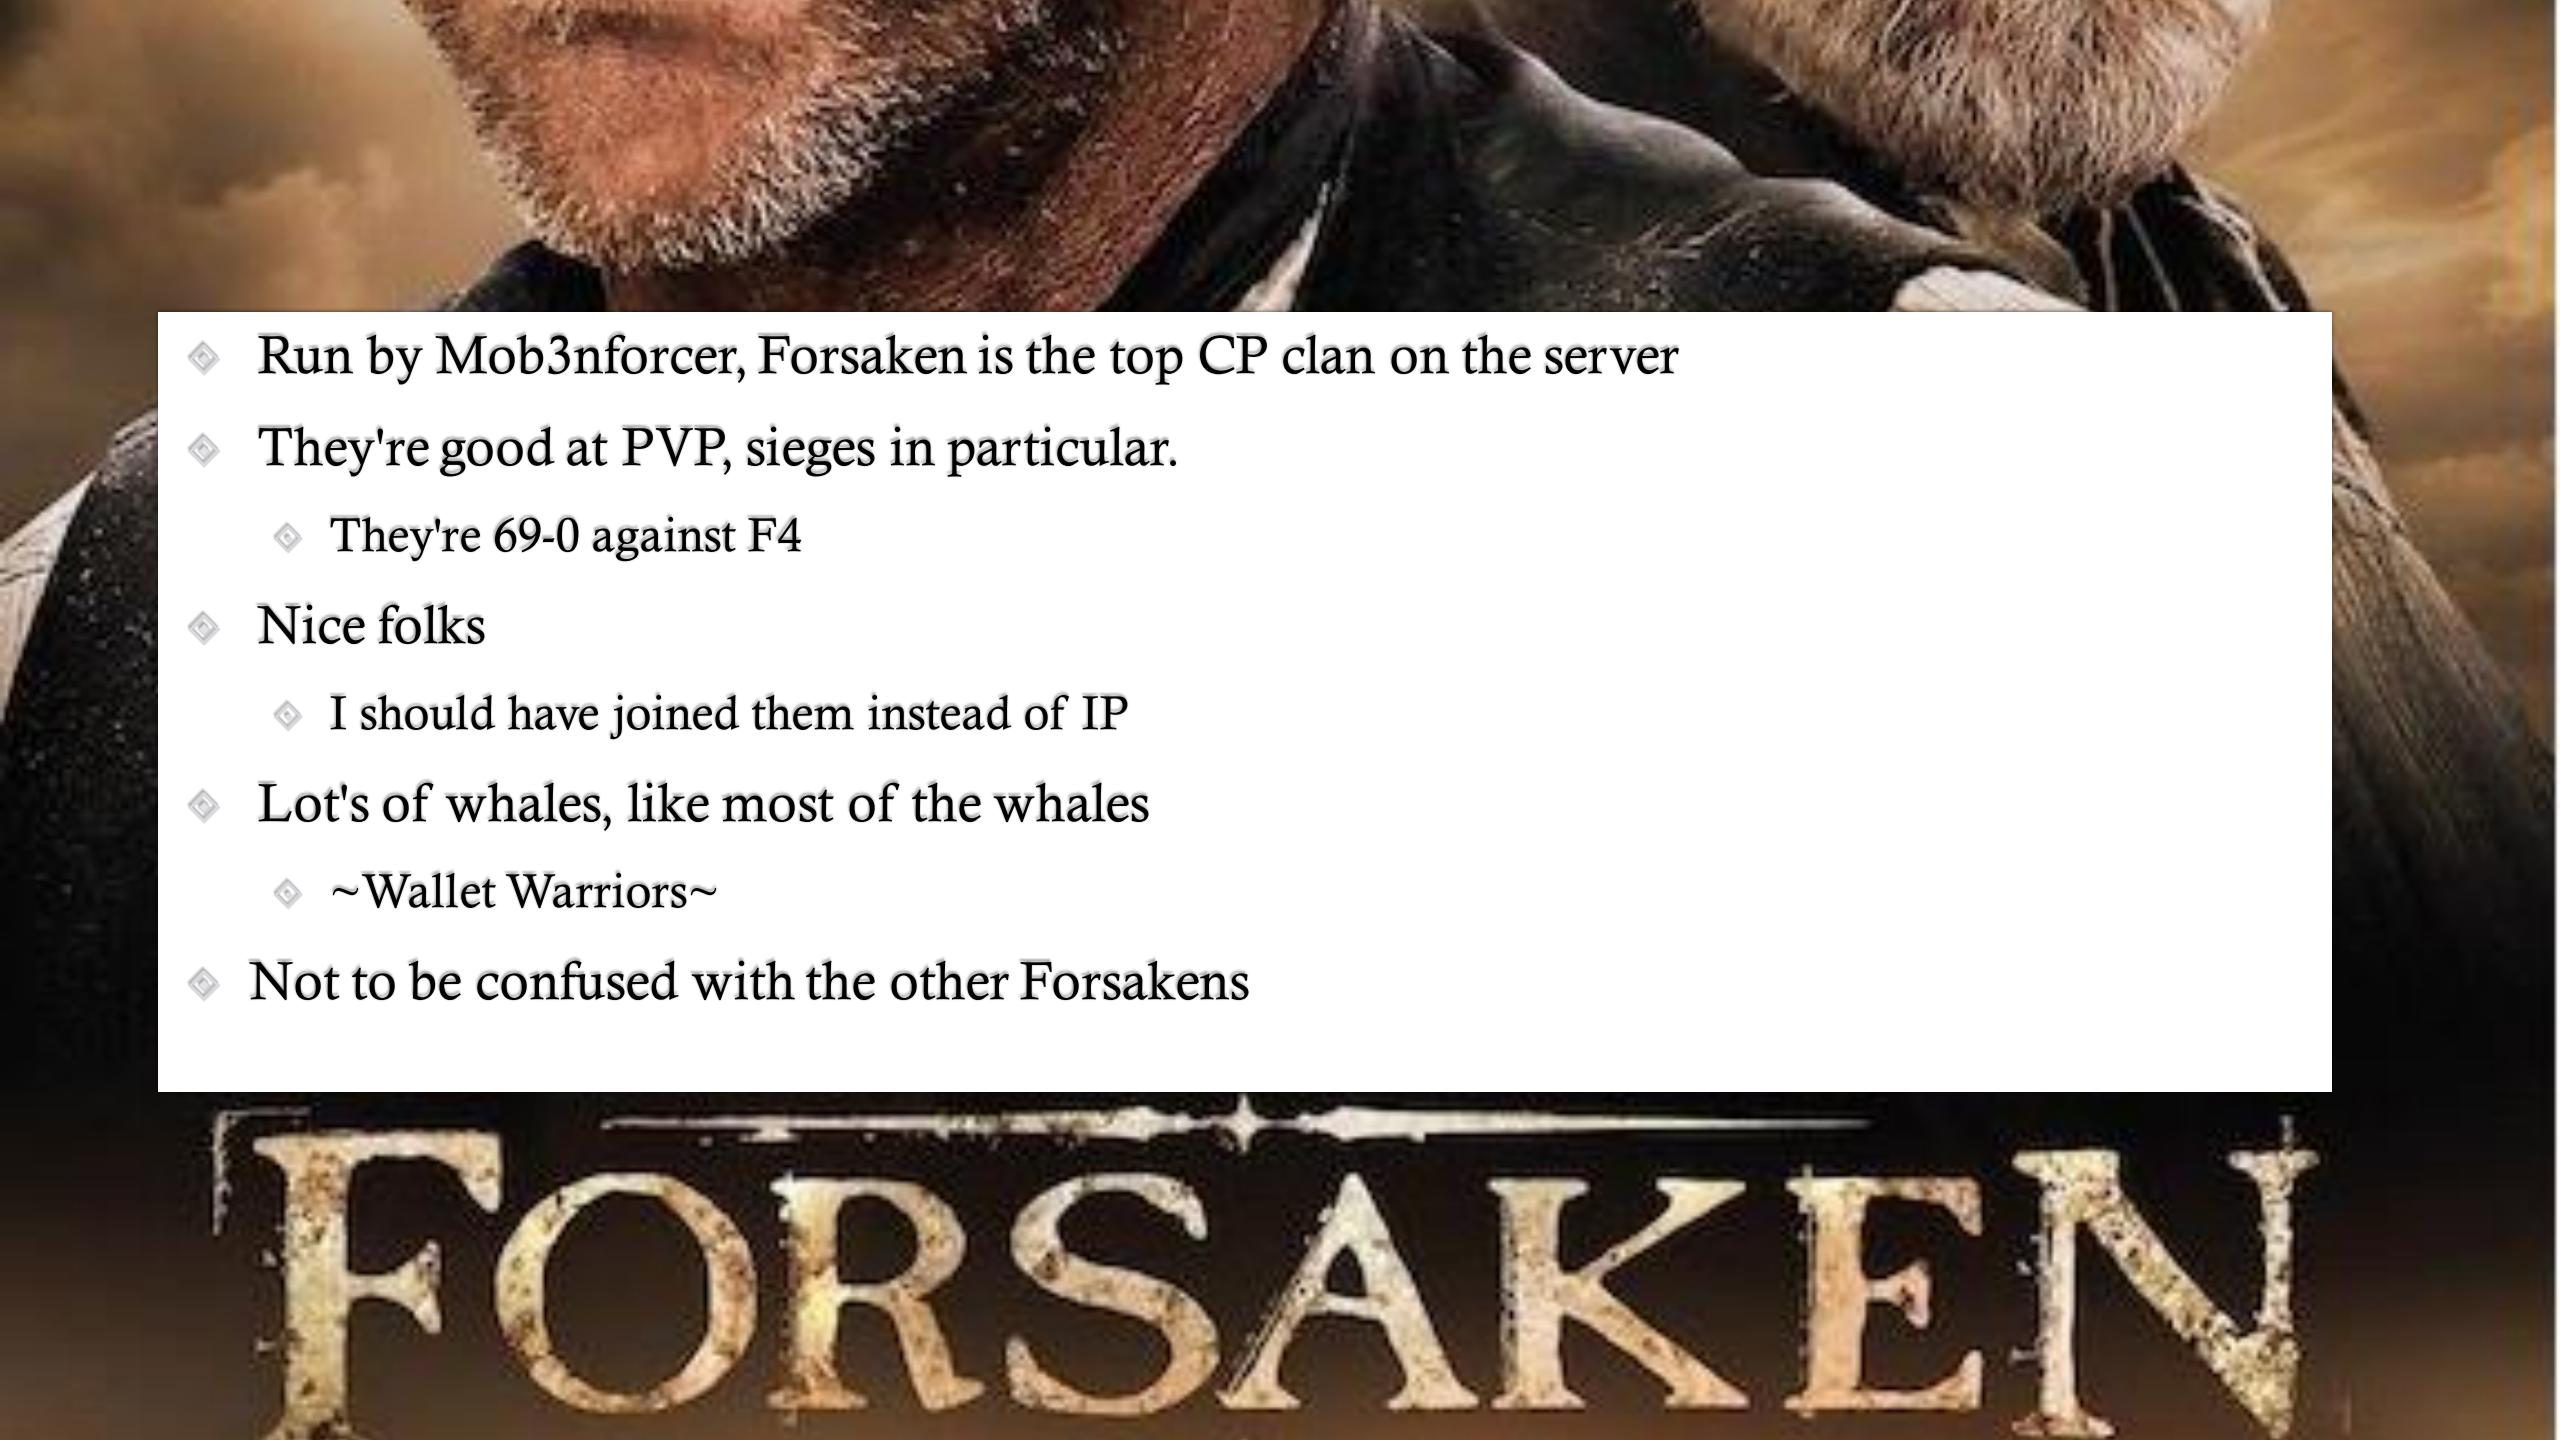

As the current Elder of Blacklisted, I can say that BL isn't dead, it's merely resting.

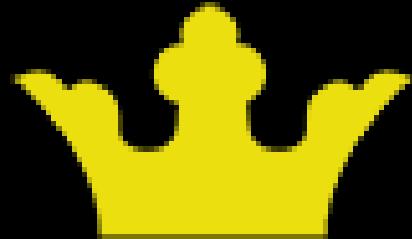

But enough about the past and how much BL rules, let's take a closer look at these sexy ass clans...

- 
- ❖ Run by Mob3nforcer, Forsaken is the top CP clan on the server
  - ❖ They're good at PVP, sieges in particular.
    - ❖ They're 69-0 against F4
  - ❖ Nice folks
    - ❖ I should have joined them instead of IP
  - ❖ Lot's of whales, like most of the whales
    - ❖ ~Wallet Warriors~
  - ❖ Not to be confused with the other Forsakens

# FORSAKEN

# LEGENDARY

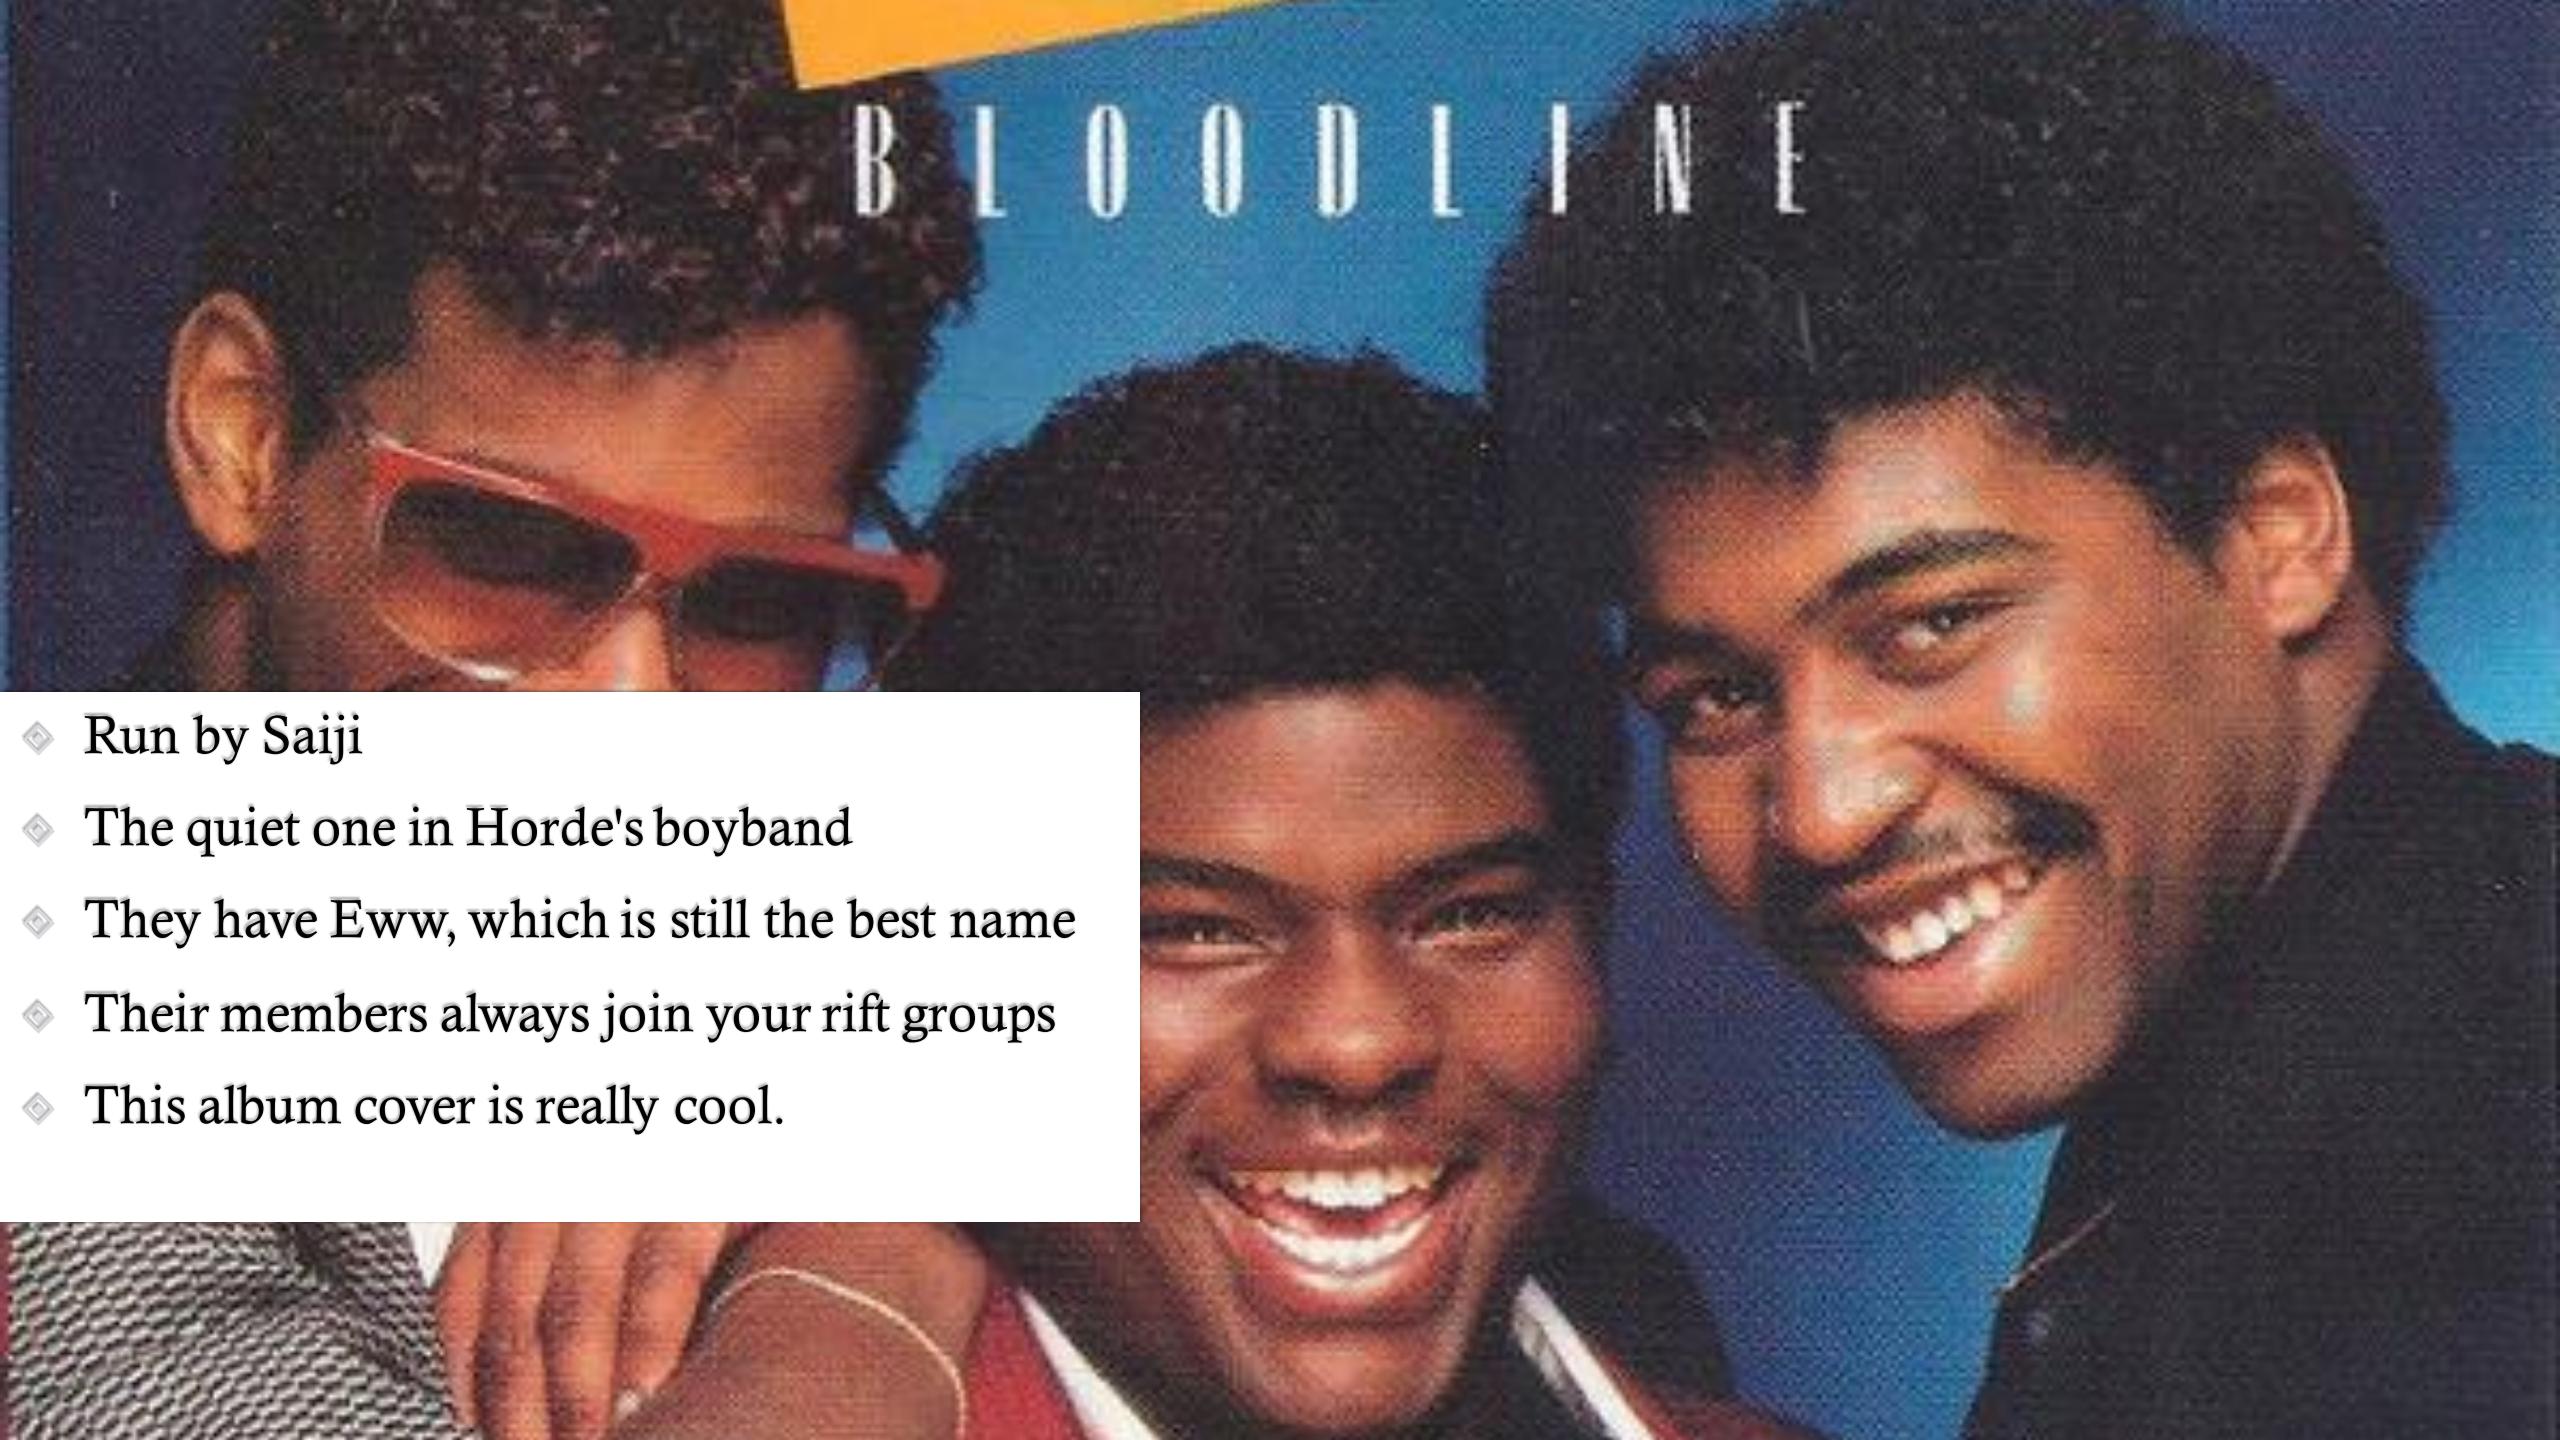

- ❖ Run by eXanity
  - ❖ Or maybe Holysmoke, idk
- ❖ They used to be pretty dorky, but they mellowed out and are now cool.
- ❖ Hold their own in PVP
- ❖ Has them whales
  - ❖ #1 Hakweye Whitegiant
- ❖ RIP Cheezy, gone but not forgotten

- ❖ Run by Amyheejilee
  - ❖ I think Tim disappeared
- ❖ Super cool people
- ❖ Gunny will share his playlist in world chat
- ❖ Invented Zepeto
  - ❖ Go download Zepeto app
- ❖ Tranquilo

# Crimson

- ❖ Run by VenMissa
  - ❖ Does really cool speed runs on Twitch
- ❖ Rad lads and ladies all around
- ❖ Deceit is a tough fucker in 3v3
- ❖ Whitegiant is also in this clan
  - ❖ Maybe RoyalClub, too?
- ❖ Has Spanish speakers, which is fun because I can practice my Spanish
  - ❖ I am up to kindergarten levels now!

# BLOODLINE

- ❖ Run by Saiji
- ❖ The quiet one in Horde's boyband
- ❖ They have Eww, which is still the best name
- ❖ Their members always join your rift groups
- ❖ This album cover is really cool.

Welcome to the Horde, Pride  
and Invictus!

I would make a slide4u, but I am  
only familiar with Glencoco and  
their bullshit 3v3 team.

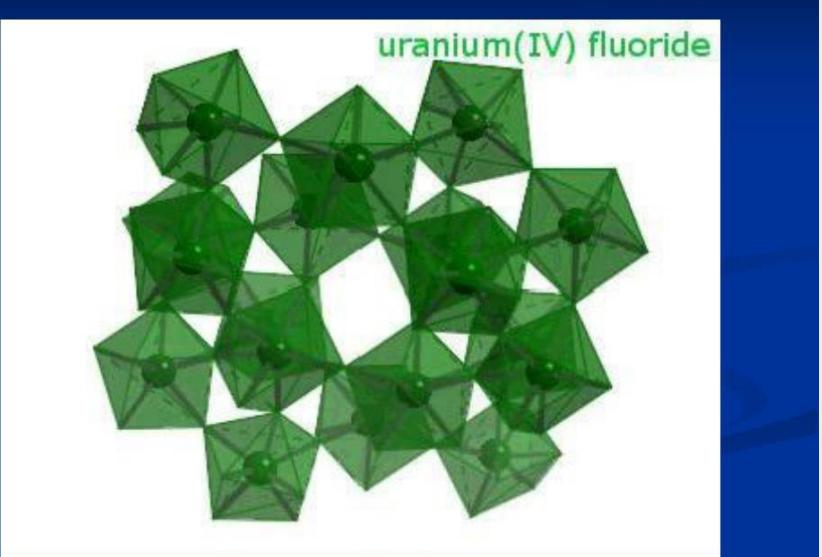

Up next, we take a look at the burning sphere of impotent rage that is F4.

Uranium tetrafluoride ( UF<sub>4</sub> )

# F4 Alliance

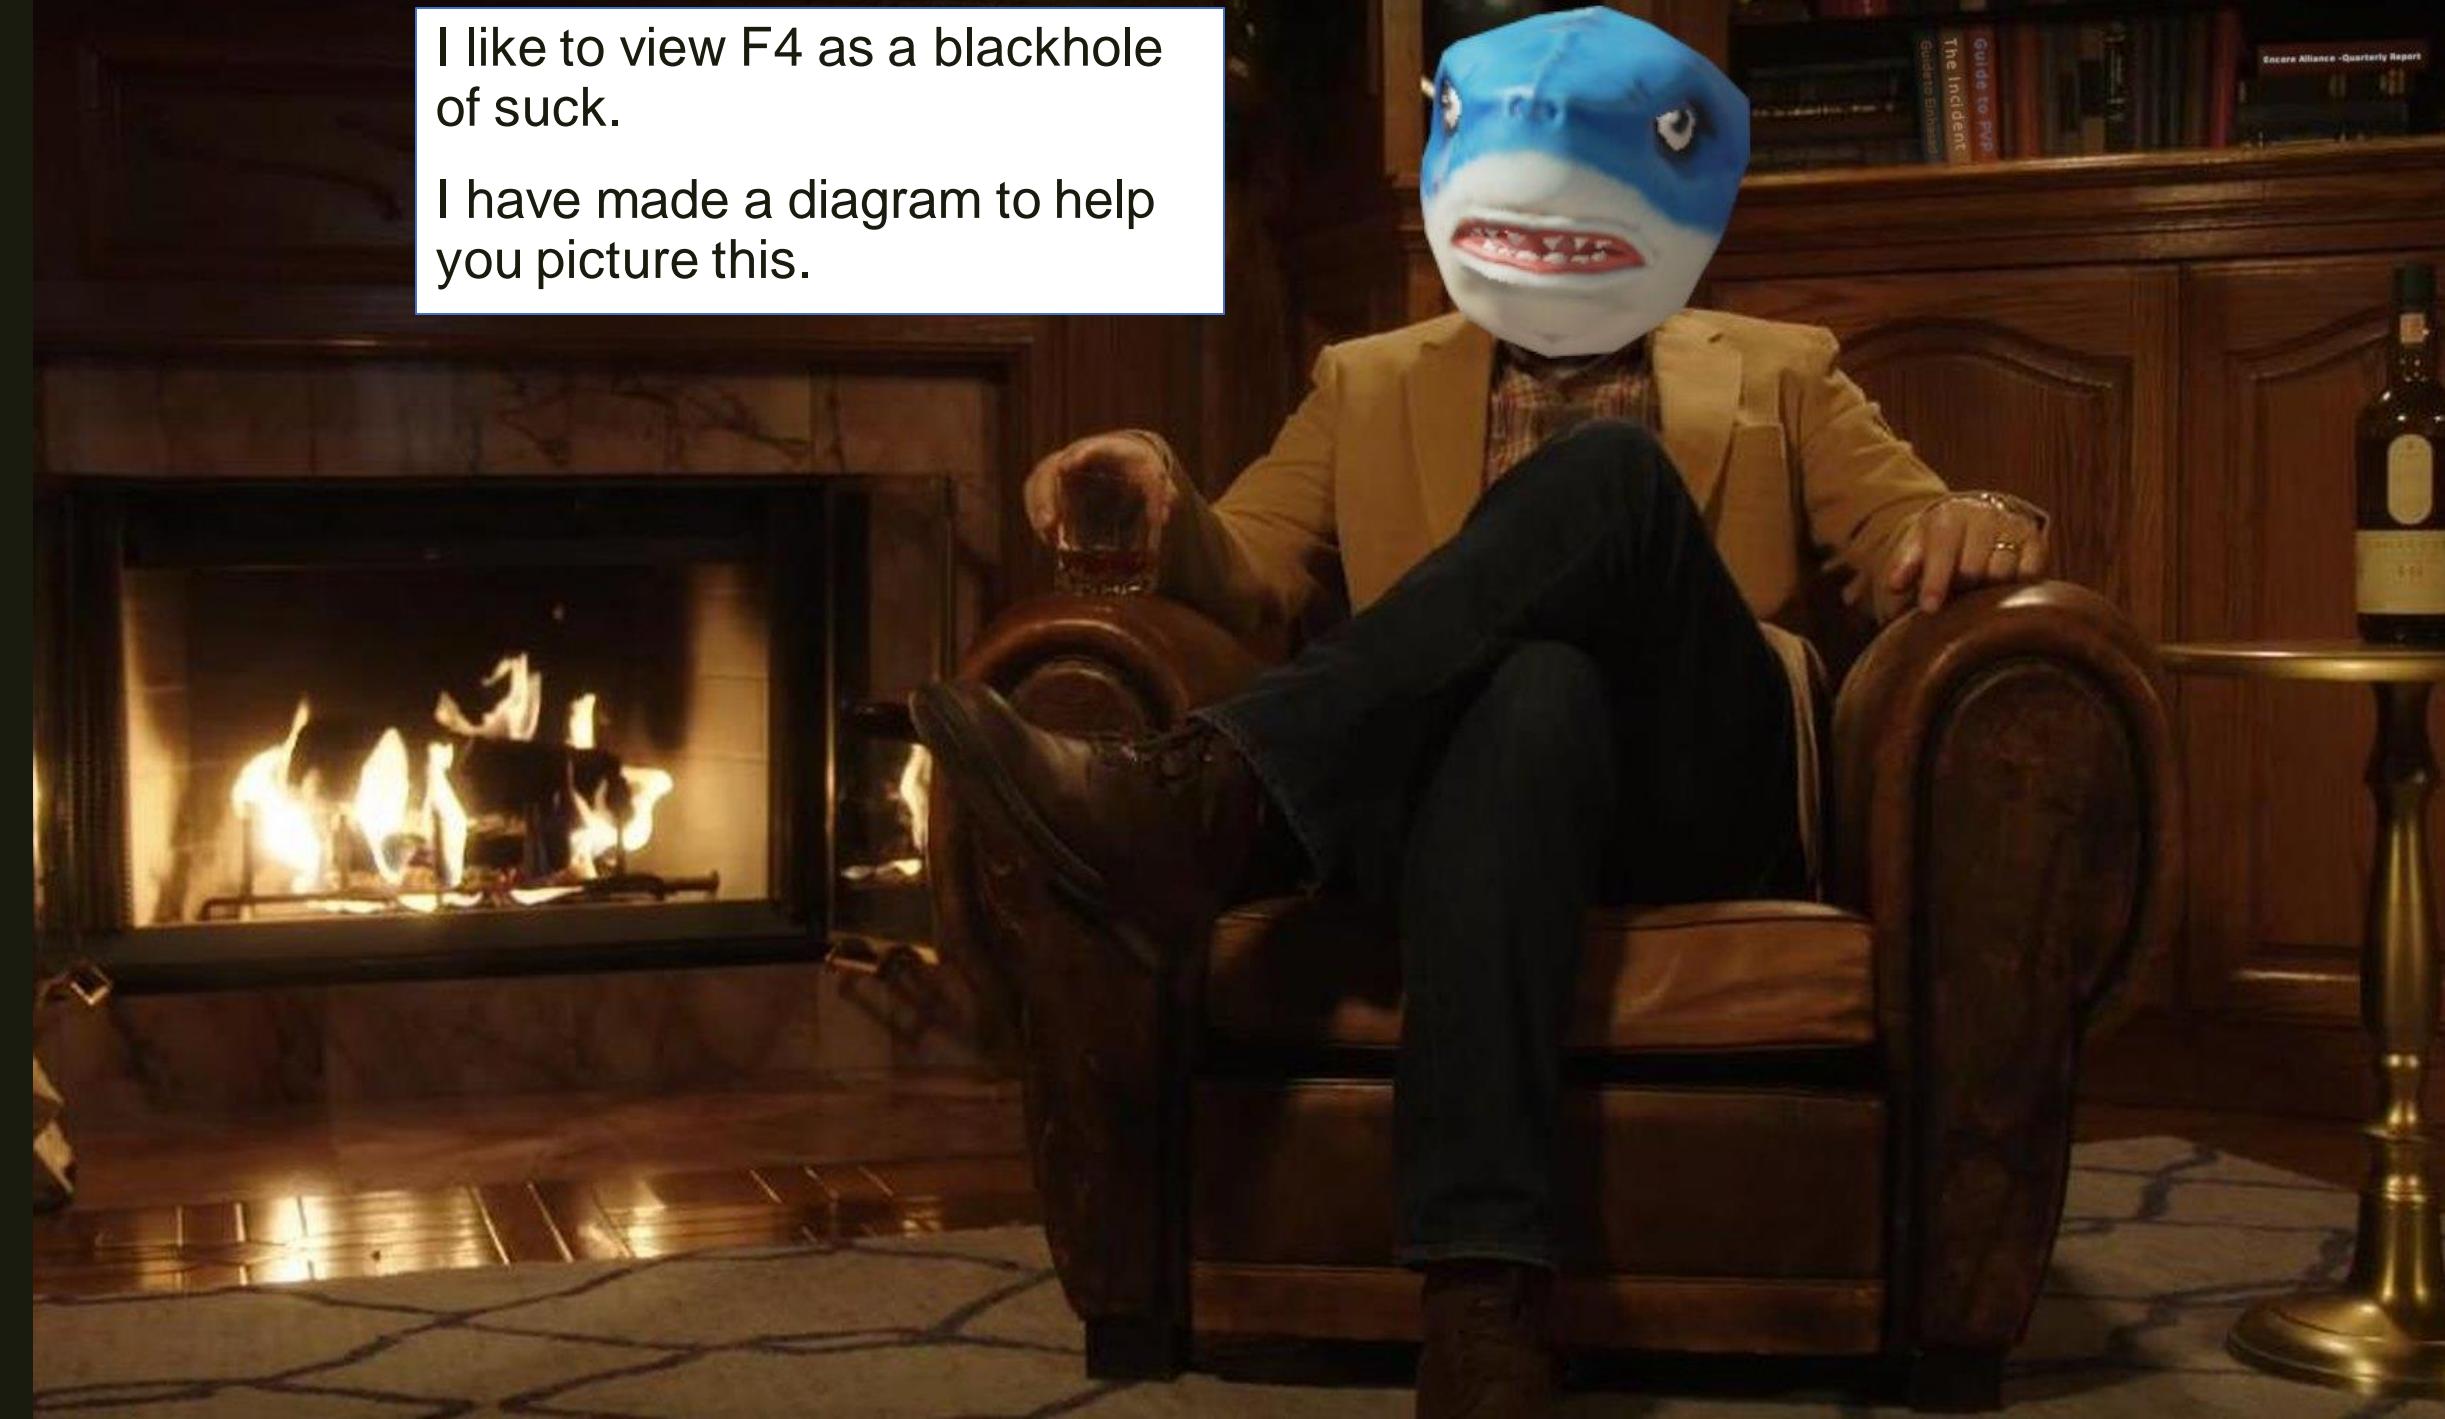

- Bad at PVP
- Bad at sieges
- Very bad at discord
- Good at being mad
- I am glad that they don't have a Burl

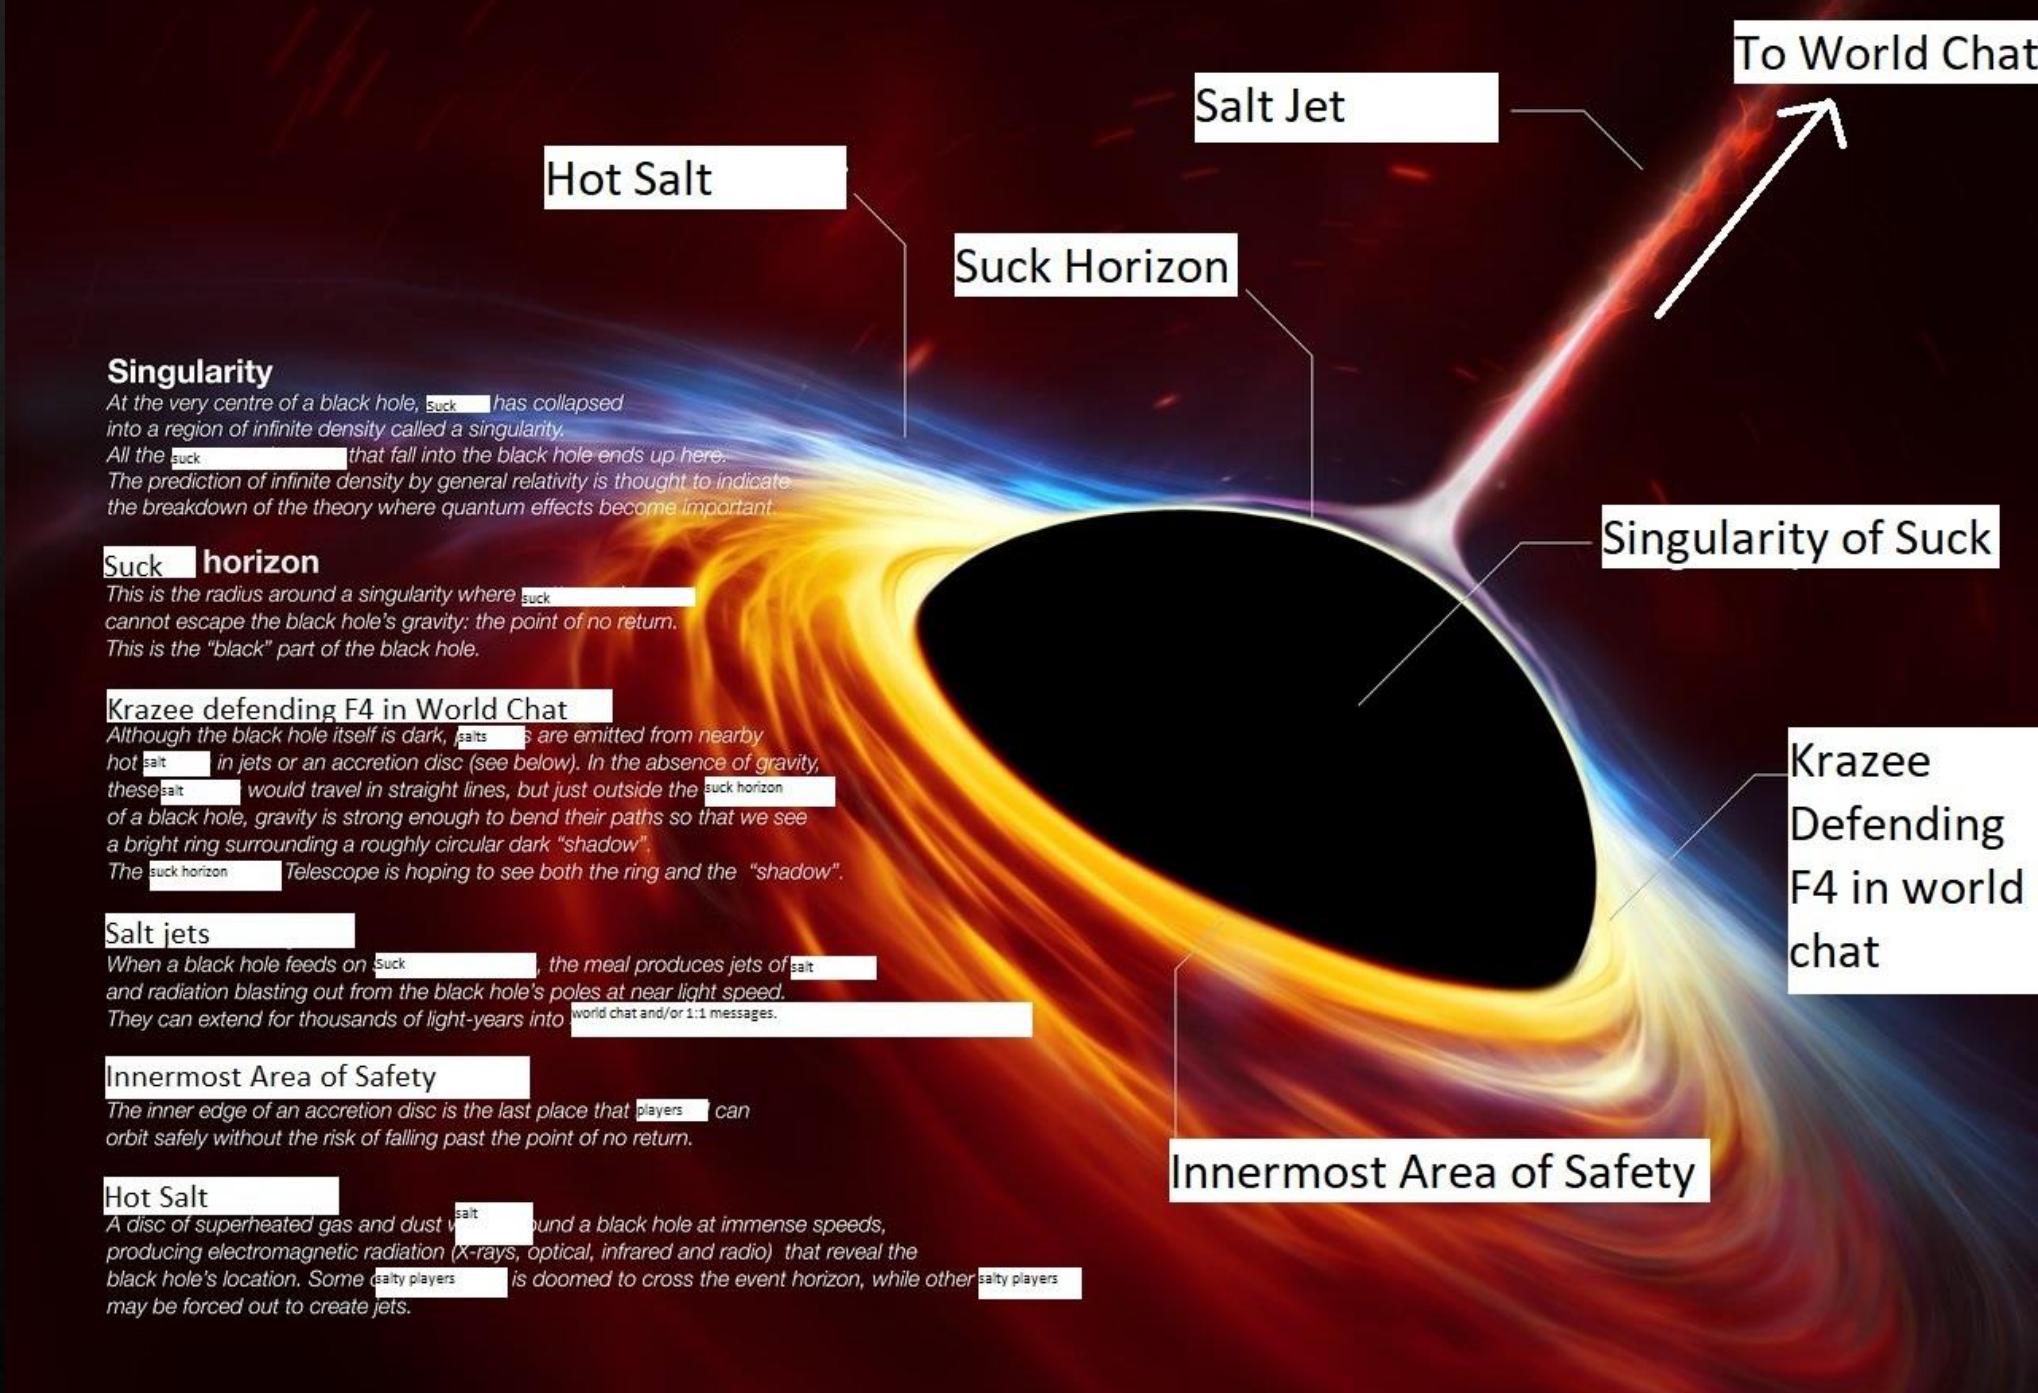

F4 are the primary enemy of the Horde alliance, not that you'd notice that since F4 rarely show up to fights.

I like to view F4 as a blackhole  
of suck.

I have made a diagram to help  
you picture this.

F4 is run by the officers of iCEp0int and Korea, with occasional input from GoW.

Sometimes IP will let Premier out of their cage and let them give input on things, but this is rare.

F4 has not had a good time on Einhotdog.

F4 did have a short run with Dion castle, but they've spent most of Einhasad barely holding on to Gludio\*.

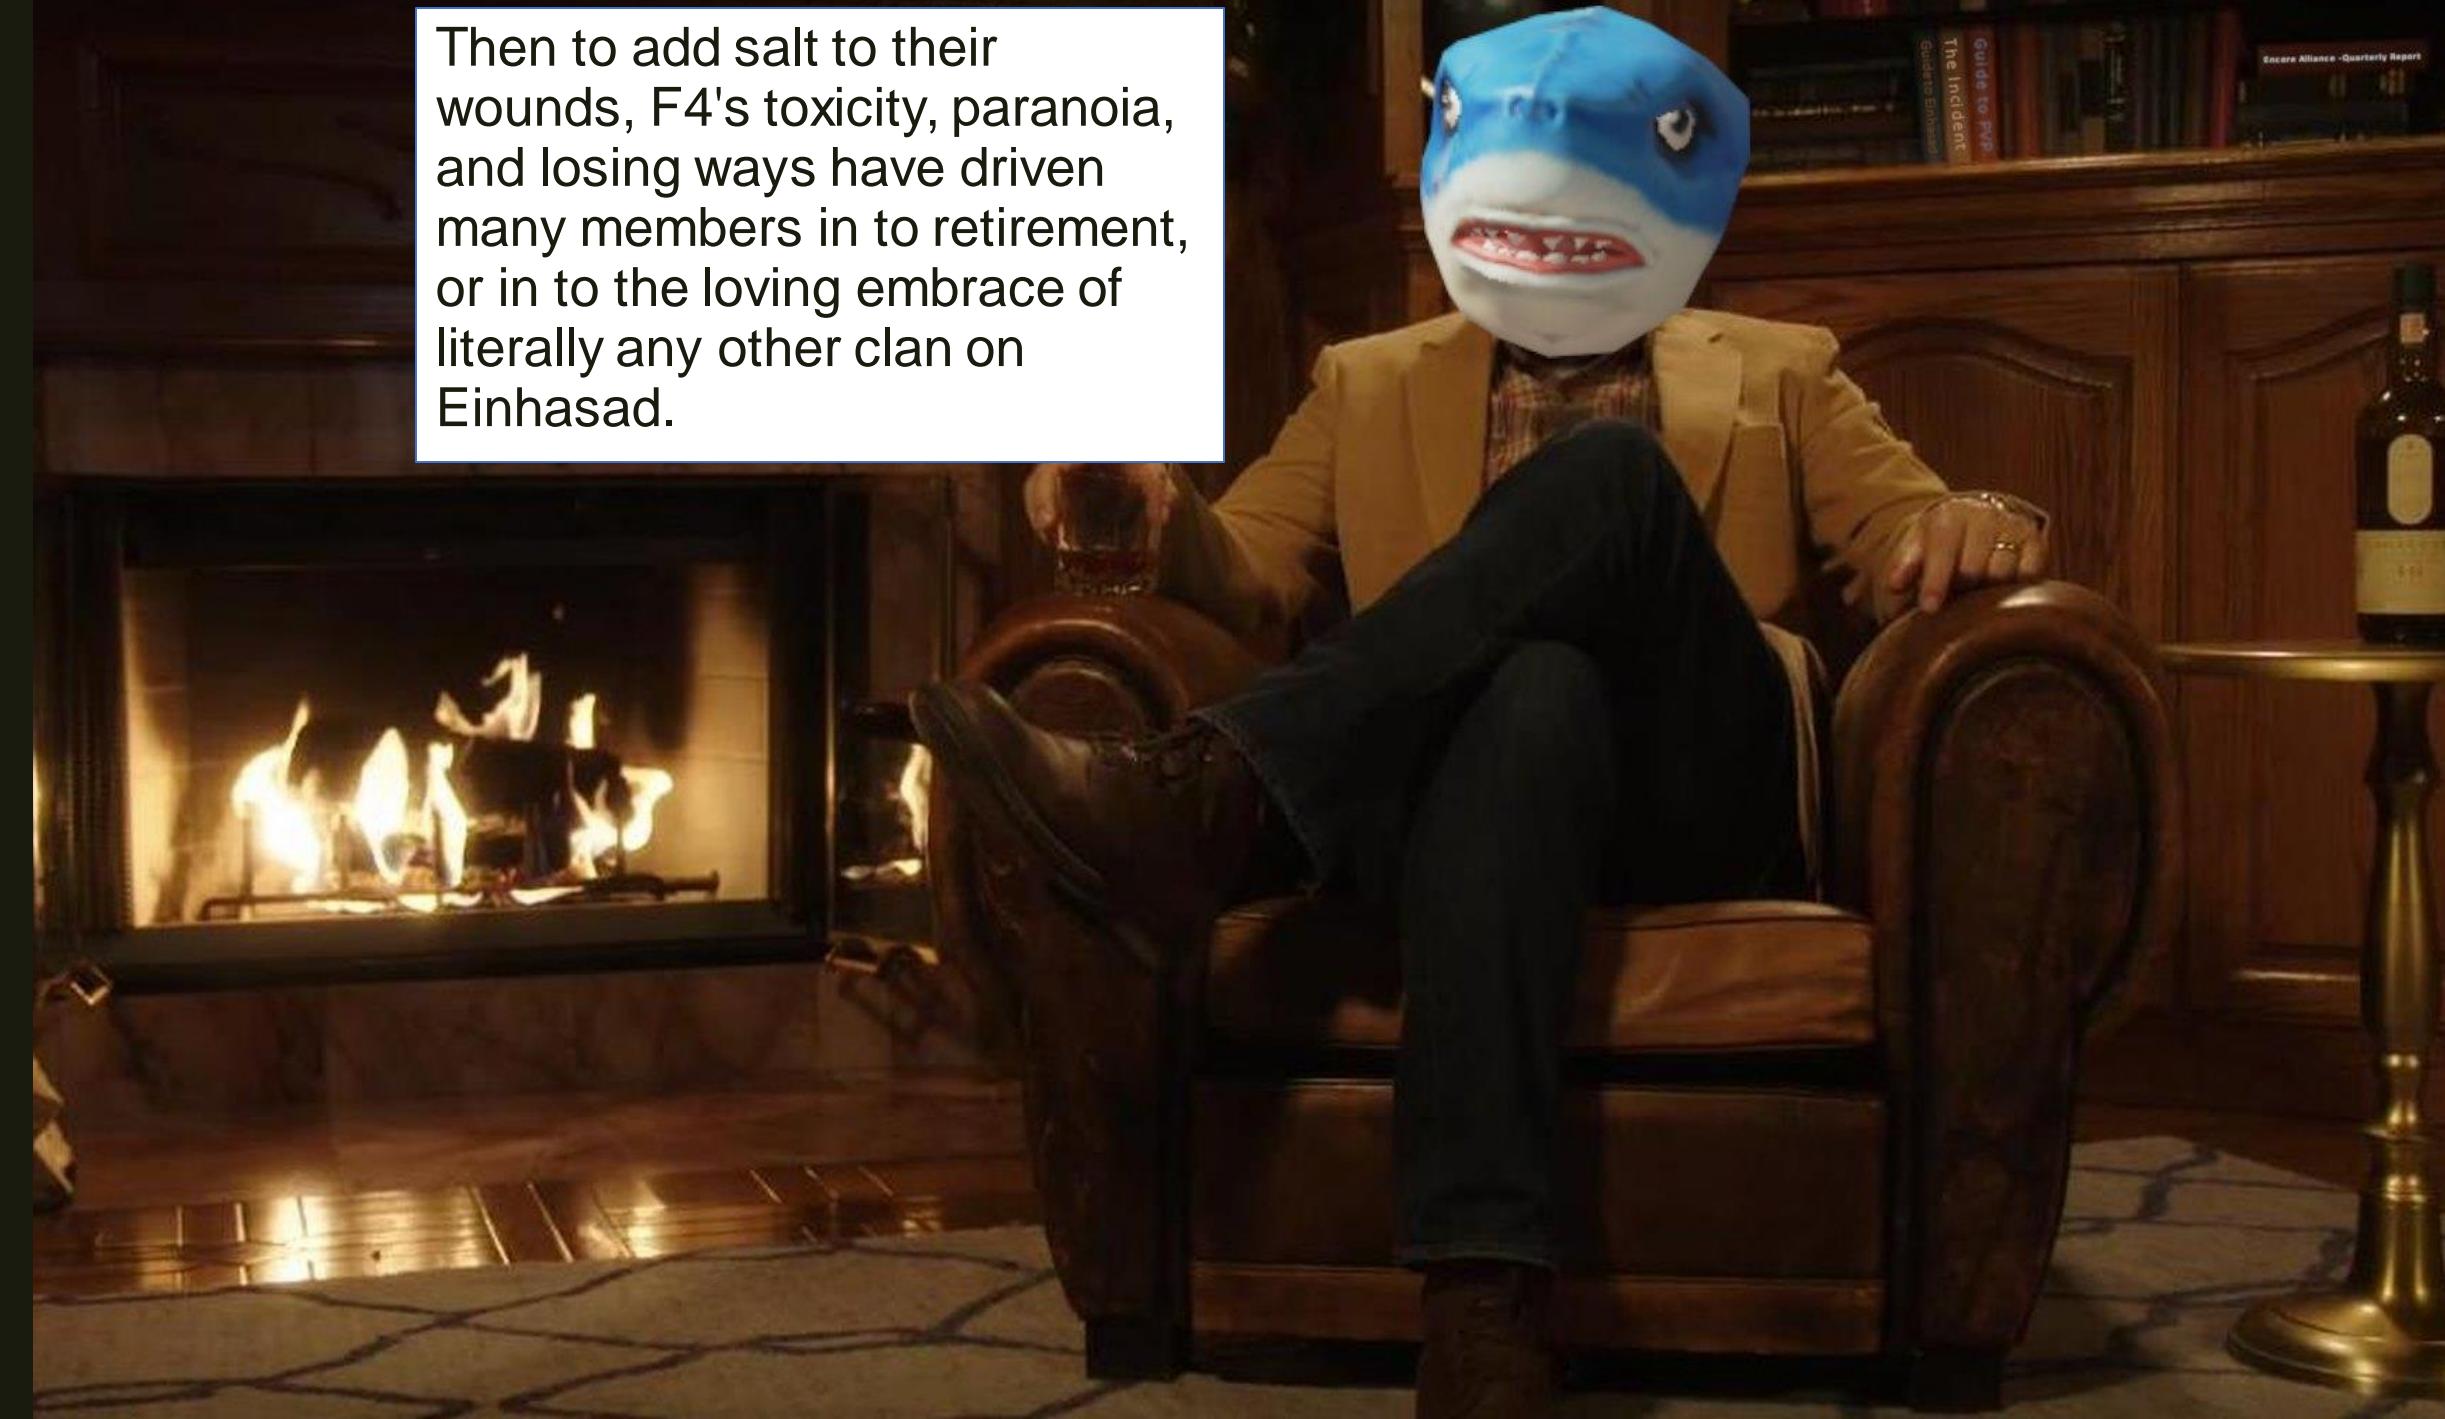

\*Then Nexus lost that lol

F4 has also had trouble in Fortresses, with their top 3 clans – iCEt1ps, ChinaClan, and KoreaClan – getting defeated by Forsaken and Fira in the final months of the server.

Then to add salt to their wounds, F4's toxicity, paranoia, and losing ways have driven many members in to retirement, or in to the loving embrace of literally any other clan on Einhasad.

There was a 2 week period where GoW lost 5 core members. Things got very dark, very quickly over there.

F4 leadership, ever the arrogant bunch, have largely ignored these issues, much like how the rich passengers ignored the rising water on the Titanic.

Their general recruitment strategy is to not recruit at all; instead, they are just waiting for Horde to collapse and everyone to run to F4.

That wasn't a joke, Ariana and Eins said this on discord.

Their siege strategy is simple and never changes:

1. Show up on time
2. ???
3. F4 wins

Unfortunately for them, F4 is still working on Step 1.

Now I could go on and on about how much F4 sucks, but let's take a look at their garbage ass clans...

- Run by iCEIApollo
- Perhaps the largest collection of trust fund kids ever assembled
- Have a lot of F2P whales
  - Just ask them, they don't spend money, only Forsaken does
- IP officers are extremely paranoid about Horde spies, so much so that they don't even trust the other F4 members with information.
  - It's easier to get in to a bank vault than it is to join F4's discord server
- IP take this stupid phone game very seriously
  - They put clan tags in their name like this is 2000 era Counter Strike

- Run by Ellainy
- The only clan other than IP that receives no blame for losses
  - Most losses are actually Korea's fault
- Krazee lives up to their name
  - You will get to know Krazee very soon
- Once refused to use the same discord server as F4 for a siege; instead, they had someone jump between F4 and Korea discords to relay information
  - F4 lost that siege
- Lost a favorable Dion siege in under 3 minutes because they popped a mag buff at 9:26 and didn't join the siege until 9:31
  - The shotcaller for that siege also got "gates" and "towers" confused, resulting in an order for F4 not to hit their gates, further slowing them down
- Lost a fort siege to Fira in under 3 minutes because Korea didn't assign teams to defense
- Lost a Dion siege back in November in incompetent fashion, which was the original topic of discussion for The Incident meeting
  - Blacklisted were right

- 戰神殿
  - Aka GoW, wartemple, ChinaClan
- Run by Einsamkeit
- Generally the nicest clan in F4, though personal experiences vary
- Easily the most competent clan in F4
  - Low bar but whatever
- Very close relationship with IP
  - No idea why, maybe GoW get off on pain and misery
- GoW took the brunt of F4's decay
  - I think most of the clan are just Eins and Firebird's alts now
- I kinda miss zzk

- Run by Ariana
  - Of The Incident fame
- One half of a '100 person clan' with Guild
  - It is now more of '65 person clan' after the F4 quit-a-thon
- Officers are drama queens
  - Clan is like a fucking high school
- Clan is blamed for everything that goes wrong in F4
  - Sometimes it is deserved
- Members like to threaten to fight you IRL if you pk them
  - lol
- Shanir, aka KungpaoWarrior, is an openly mysogynistic and homophobic piece of shit
  - Ariana and her officers ignore this as he's "one of our own"

- ❖ Run by Bobby6612
  - ❖ You'll see him talking a lot of shit in World Chat
    - ❖ More of a "world chat PVPer" than an actual PVPer
  - ❖ Basically the kids table to Premier's adults table
  - ❖ Rivalled only by IP in how much they like to shit talk vs how much they like to PVP
  - ❖ Not really much to say since they're not very relevant anymore.
    - ❖ Good job, Whut

- ✓ I have no idea who runs Nexus
- ✓ Newest F4 member
  - ✓ Only in F4 because their leader kissed a lot of IP ass
- ✓ They lost Gludio to Zodiac
  - ✓ According to F4, that didn't matter because of the server merger
- ✓ They speak Spanish
  - ✓ I don't think Korean or Mandarin translates well to Spanish
    - ✓ Good luck with that F4

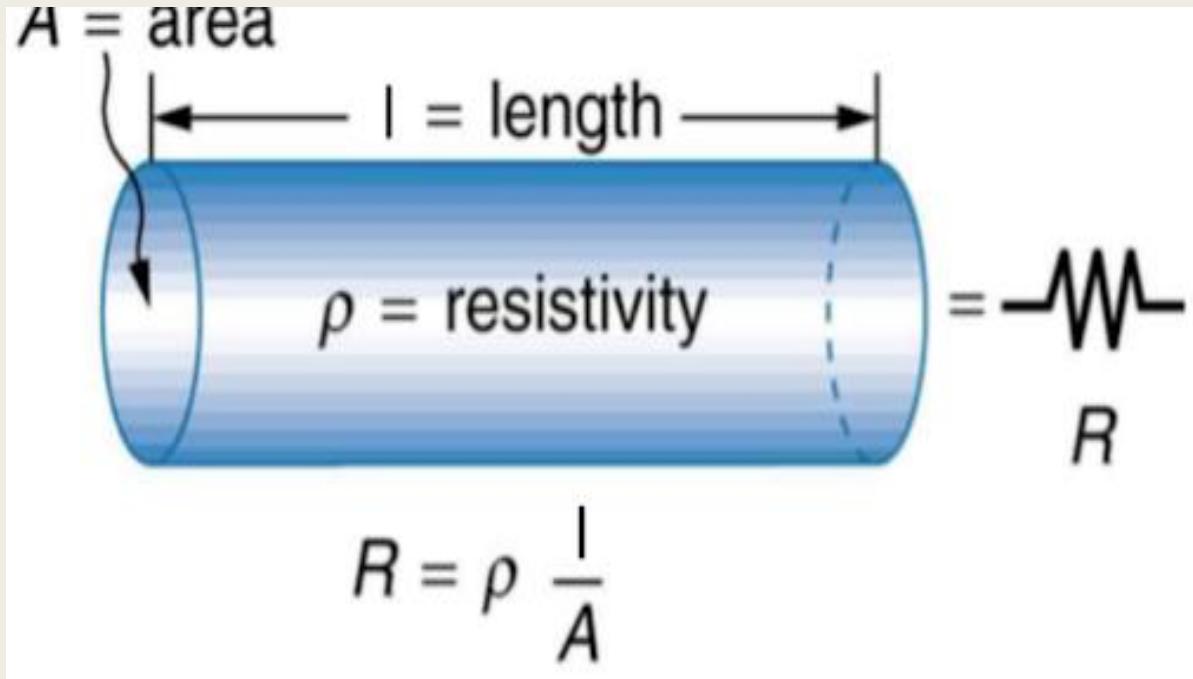

lol F4

Up next, we take a look at  
Resistance.

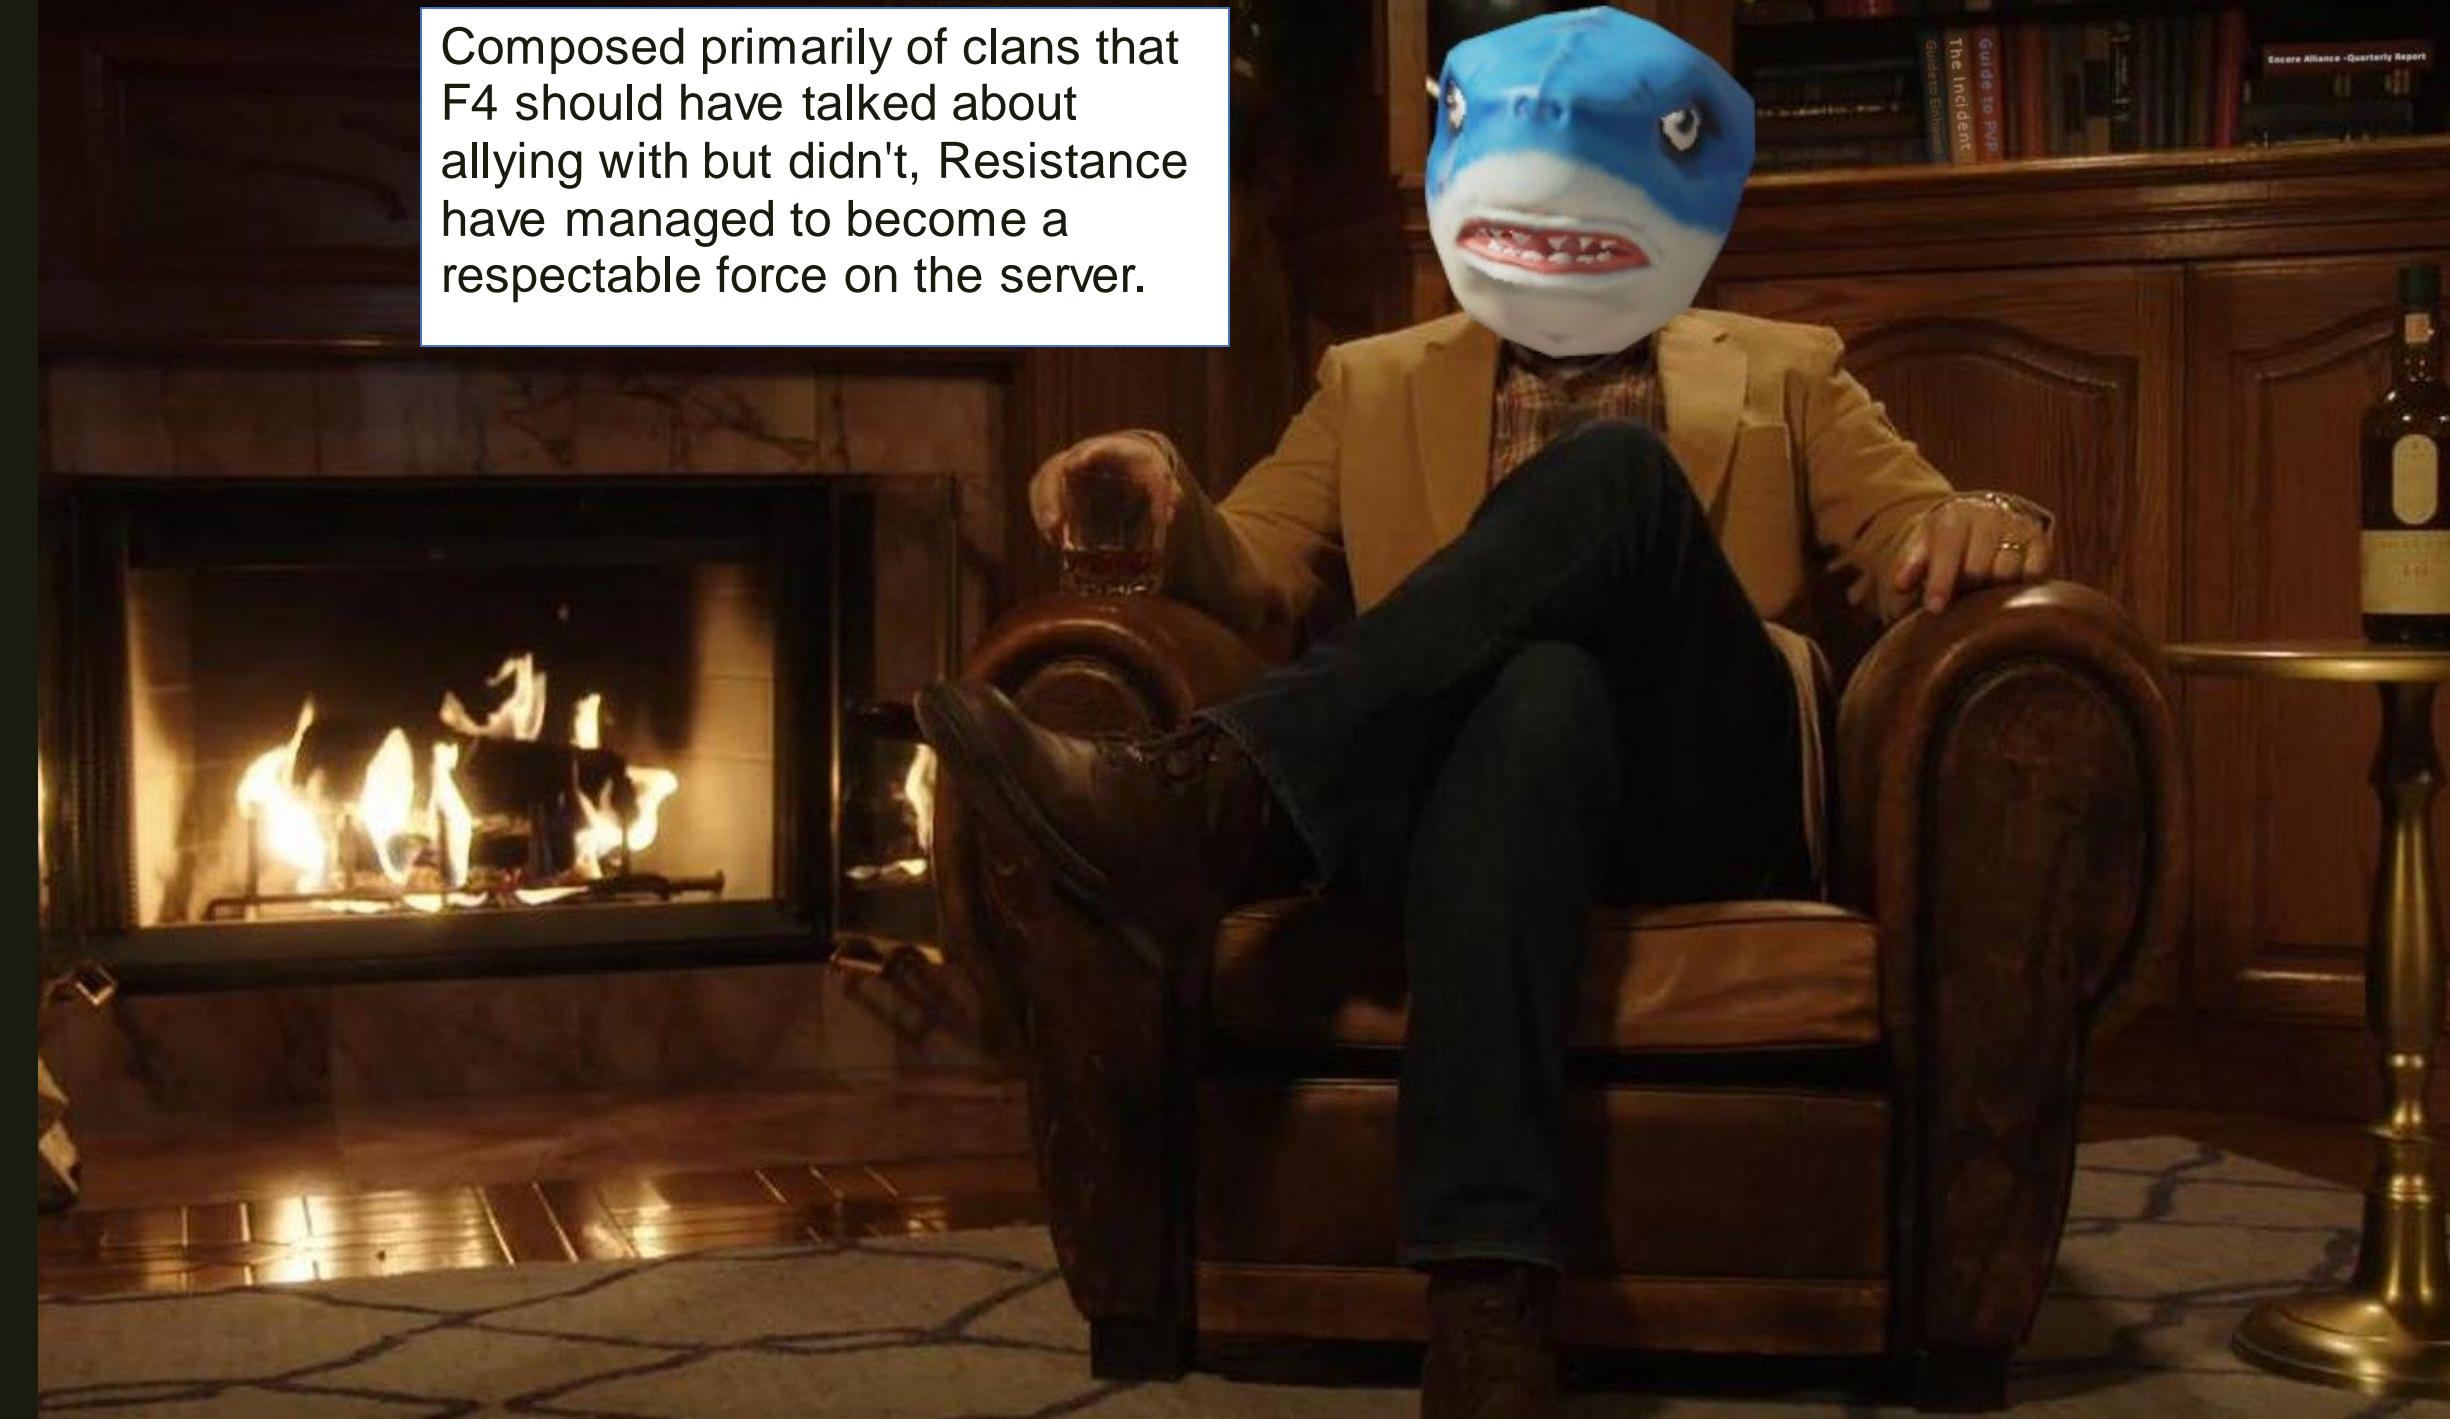

# Resistance Alliance

- Okay at PVP
- Better at sieges than F4
- Burl was offered a spot in there
- Way too many dwarves

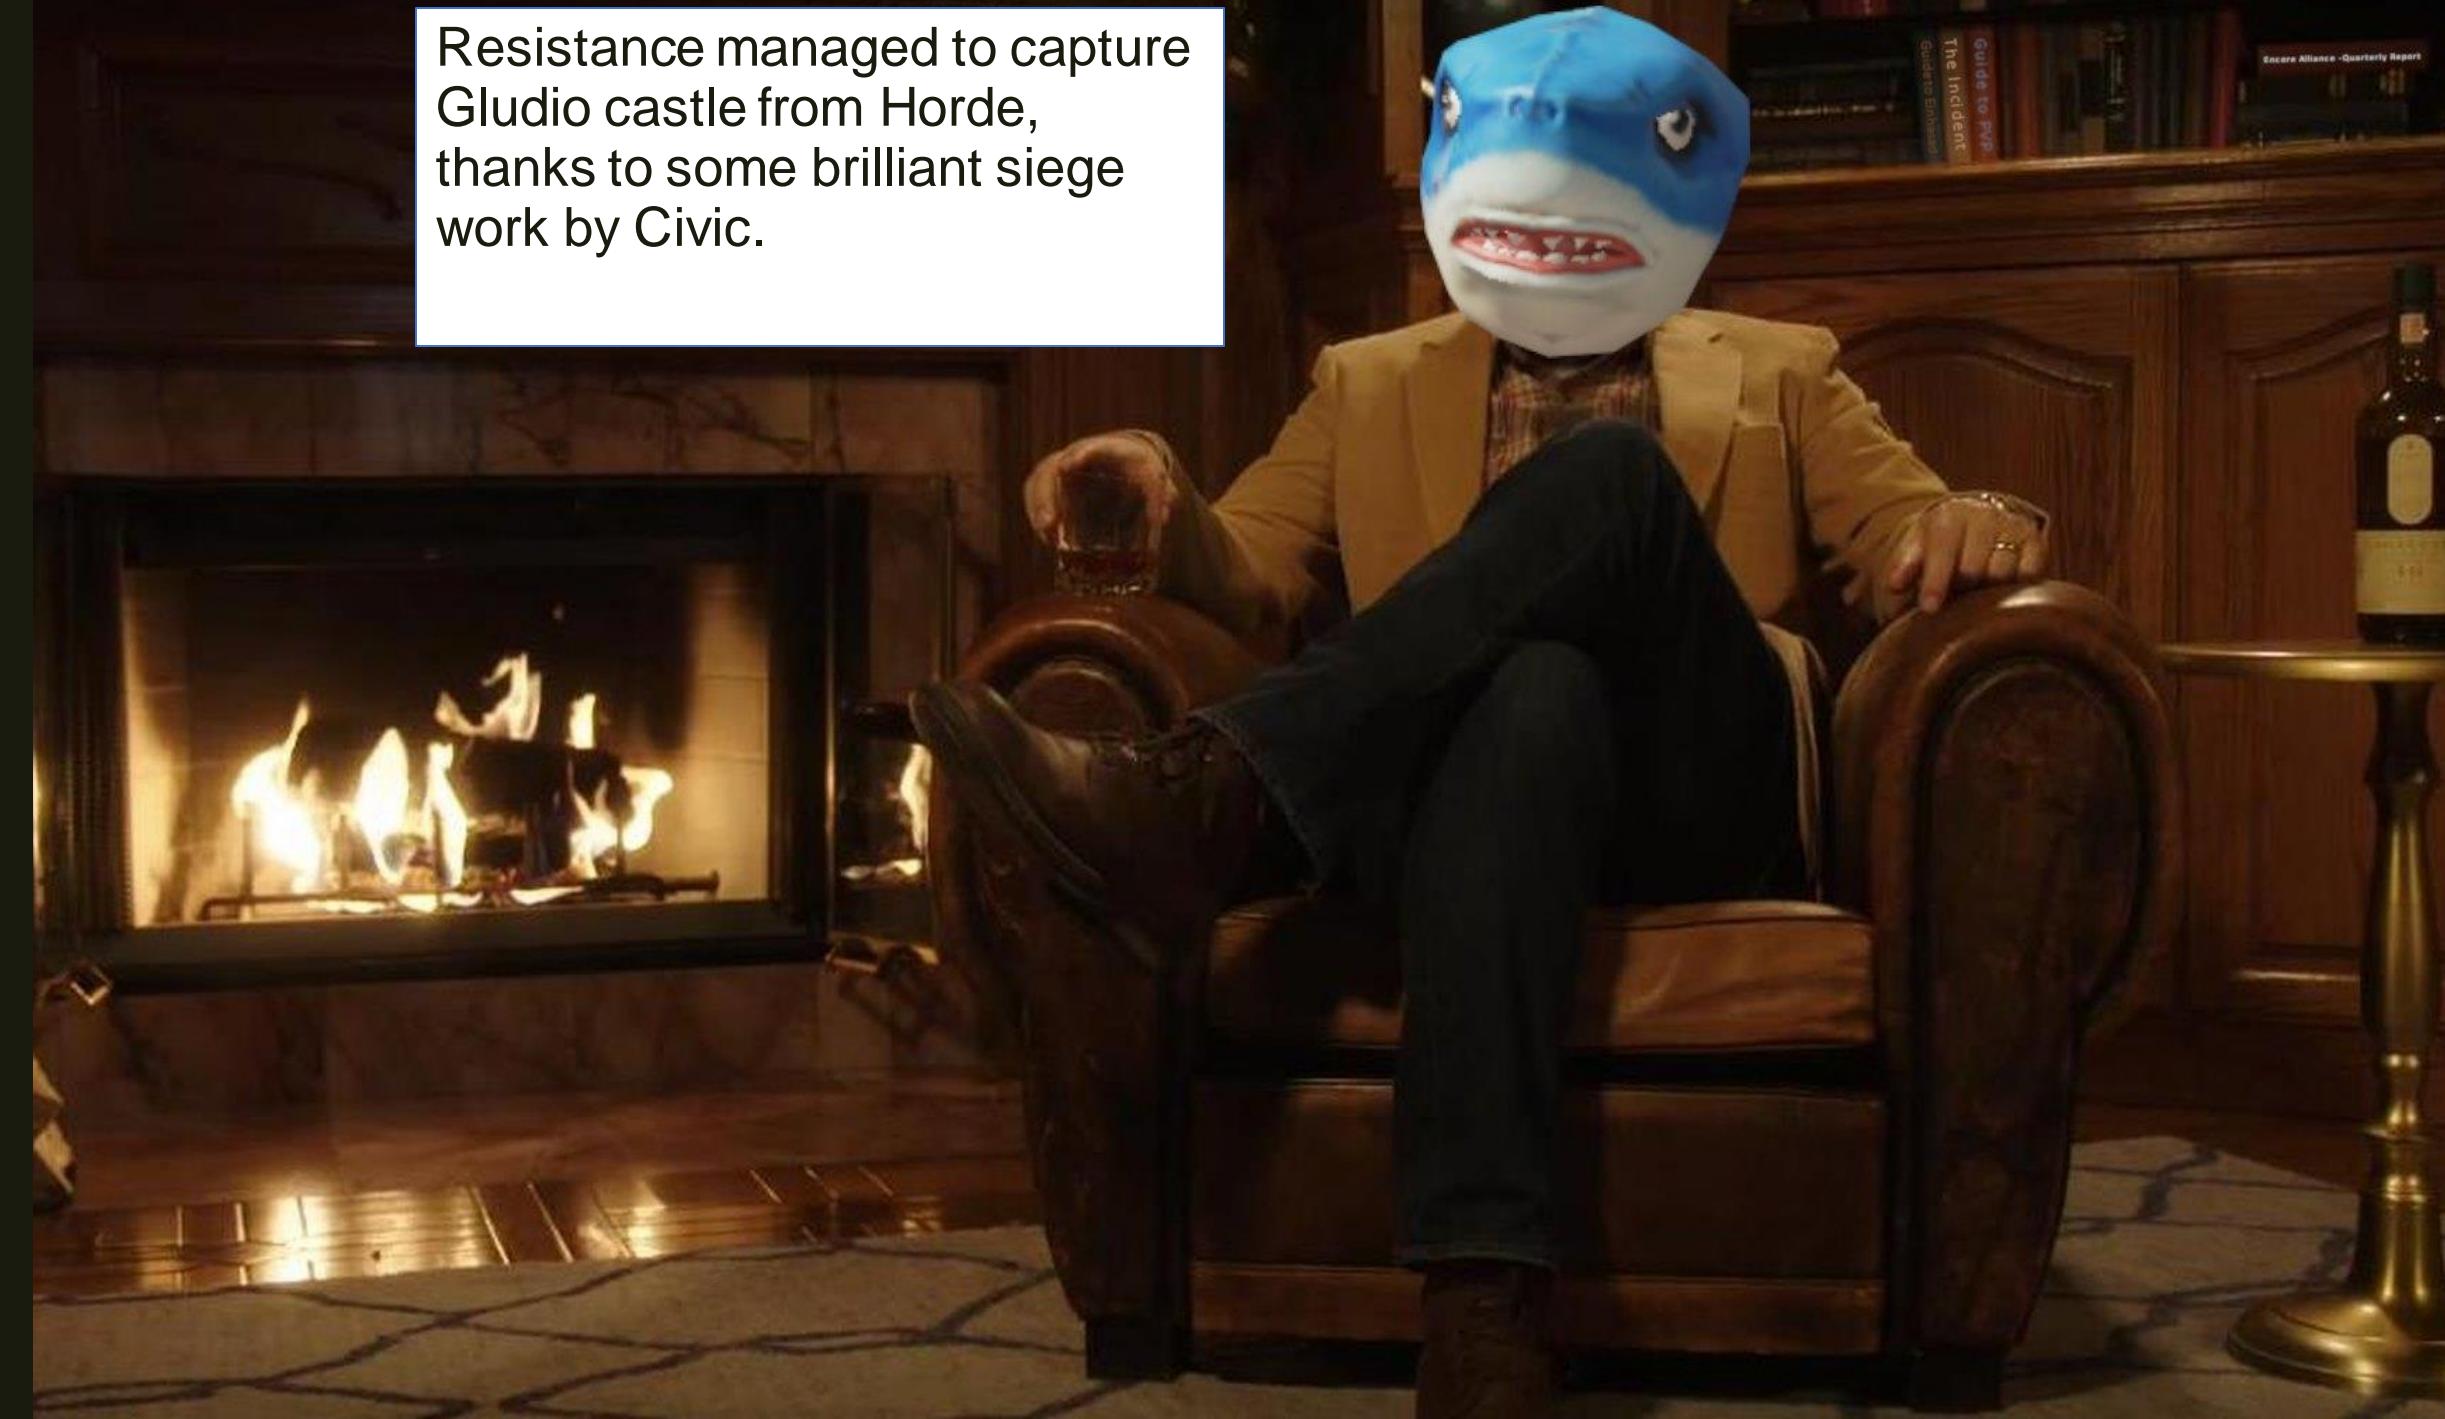

Resistance emerged in January as the third faction on the server.

Composed primarily of clans that F4 should have talked about allying with but didn't, Resistance have managed to become a respectable force on the server.

Resistance managed to capture Gludio castle from Horde, thanks to some brilliant siege work by Civic.

Civic were in Horde at the time.

Resistance held Gludio for a few months until IP took it for F4 (yes, F4 went a few months without a castle).

During the final sieges of Einhasad, Resistance's Zodiac, with help from The Horde, took Gludio castle from F4. Resistance also humiliated Korea in a fort siege, despite overwhelming odds.

This wasn't even a magbait situation or anything, Korea just pissed away an easy win.

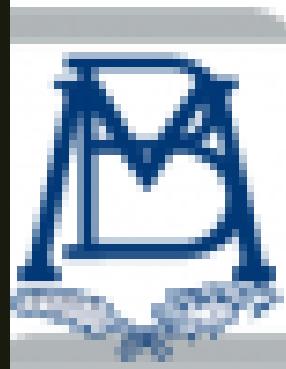

With Gran Kain bringing in some fresh bodies, and F4 refusing to ever negotiate alliances, Resistance should be able to restock and secure a spot on Vespa's PVP scene.

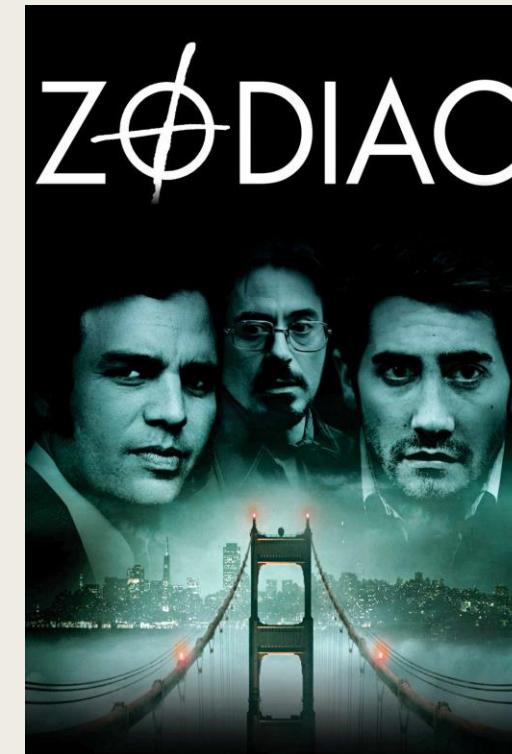

Let us now take a look at these  
perky ass clans of Resistance...

- Run by EpikFayler?
  - Idk
- Big dog in Resistance
- Very old clan, dating back to launch day
  - I actually got invited to join on launch day but they were full
- Not huge on PVP, but they can be a tough siege opponent
- Used to have another clan named Firaga

- Run by Pox
- You either don't mind them or they are kos to you
- Their discord has a porn channel
- It disappoints me that Pox doesn't send 1:1 messages that start with "this is the zodiac speaking"

- I. Run by K2aries
- II. Actually some pretty nice people
- III. Not big in PVP but their members merc to Fira or Zodiac
- IV. Greene is a good person and super friendly

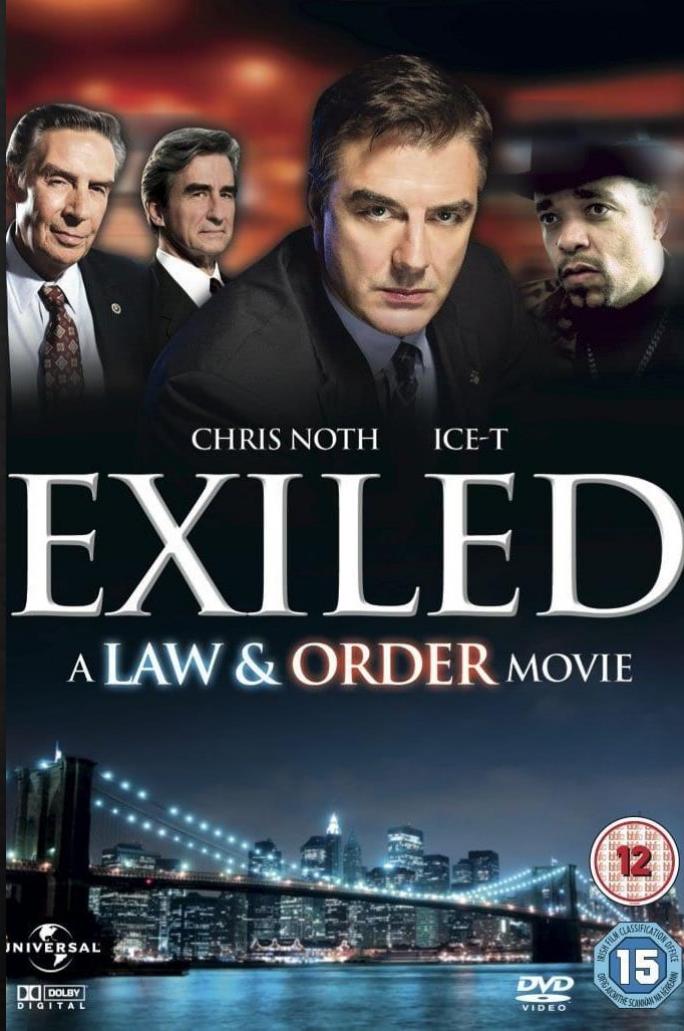

e m p i r e  
beauty schools®

- a. Run by Bizmark
- b. Old clan, but not Fira old
- c. BR and Fira have been buddies for a while
- d. Not super in to PVP either
  - a. More of a merc haven
- e. Their 3v3 teams with Scubasteve are a bitch

- ❖ Run by Kuma
  - ❖ Not the Kuma from Tekken, sadly
- ❖ Mostly a PVE clan
  - ❖ They will also join your rifts
- ❖ We used to have 2 Exiled's until Whut killed one off
  - ❖ Good job
- ❖ Decent folk just trying to get by

Now for all I know, half of those clans are not in Resistance anymore.

It's not like clans put their alliance affiliations on the clan info pages.

For real, why don't clans do that?

It would be super convenient for everyone, and it takes like 2 seconds.

Well, that's it for our trip through Einshotbod.

For those of you that thought  
"Hey, didn't you do this one  
before?" I say shut up.

Thanks for reading
